Dominant Buying Motive: SCALE AND DOMINATE

Mauro wants a firm that generates consistent case flow across all 8 locations — without him personally driving every client relationship.

> *"No transcript provided — DBM inferred from website and market research. Confirm on discovery call."*

What he wants:

- **Predictable case flow at scale.** A paid system generating leads across all 8 markets — not referrals or organic alone.
- **A firm that runs without him.** 30+ team members across 8 offices should produce revenue without Mauro in the loop.
- **Dominate LA PI.** His footprint and 25-year reputation should translate to digital dominance — not cede ground to well-funded newcomers.

What is stopping him:

- **No paid marketing.** No Google Ads, LSA, or Meta confirmed — competitors own all paid visibility in every market he serves.
- **No ops or intake layer confirmed across 8 offices.** Leads are likely lost with no visibility into how many or where.
- **No financial baseline.** Revenue unconfirmed — growth investment decisions made without verified P&L; data.

Why This Marketing Package

Full Service Marketing — Growth | $7,397/mo bundled ($8,997 stand-alone)

- Launches paid case acquisition across all 8 markets — capturing MVA, PI, and workers' comp searches competitors are currently winning uncontested.
- Spanish campaigns — Fiore's bilingual team and Spanish site are ready; Spanish CPLs run 20–40% lower than English with identical case values.
- Growth tier correct for est. $1.5M+ revenue. Ad spend cap: $40,000/mo — upgrade to Dominate if goals require more.
- Covers GBP optimization, local SEO, and city-specific landing pages across all 8 locations under one management fee.

Why These Operational & Financial Packages

Master's Circle + FCOO Advisor | $5,694/mo bundled ($7,794 stand-alone)

- Builds the ops layer — a Fractional COO constructs accountability frameworks, multi-location management structure, and SOPs across all 8 offices so Mauro is not the decision-maker for everything.
- Master's Circle peer network of PI owners at the same revenue/complexity — sharing what actually works in competitive markets right now.
- 30+ team members confirmed on site — dedicated ops need exists NOW, not in Phase 2.

FCFO Advisor | $2,297/mo bundled ($2,797 stand-alone)

- Establishes the revenue baseline and location-level P&L; for all 8 offices — so every growth investment decision is made from data, not instinct.
- No revenue confirmed externally — getting the verified financial picture is a first-90-days deliverable that removes the guessing from every future decision.

Why This Ad Spend

What it does for him:

- Conservative: est. 5 signed cases/month = $37,500 revenue from $10,000 in ad spend — a 3.75x return.
- Aggressive: est. 28 cases/month = $210,000 revenue from $40,000 spend — a 5x return across all 8 markets.

Recommended Ad Spend Range:

- **Conservative:** $10,000/mo — MVA minimums: PPC $5,000 + LSA $2,000 + Meta $3,000.
- **Aggressive:** $40,000/mo — Growth tier cap; full depth across all markets and Spanish campaigns.

Estimates only. Not guaranteed. Confirm revenue and actual case value on discovery call. Default case value of $7,500 used (MVA/PI midpoint).

Cap note:

- At aggressive: $55,388 total (fees + ads) = 44.3% of est. $125K/mo revenue — exceeds 35% cap. Confirm actual revenue; with 30+ staff across 8 offices, actual revenue is likely $3M–$6M+, which resolves this well within cap.

If He Pushes Back

"We've grown on referrals for 25 years — I'm not sure paid ads will work for us."

Downtown LA Law Group has 624 Avvo reviews and a full paid marketing stack across every Fiore market. Sweet James runs a multi-million dollar ad budget with 600+ reviews. Referrals built the firm — paid search is what wins in LA PI today. Spanish CPLs run 20–40% lower than English with identical case values.

"The $15,388/month is a significant commitment."

Conservative scenario alone — 5 cases x $7,500 = $37,500/month from ads on $10,000 spend — returns 3.75x on just the ad spend. The bundled package saves $4,200/month vs. retail pricing. And with 30+ team members and 8 offices, actual case values are likely above the $7,500 default — real ROI will be higher.

"Why do we need both the FCOO and FCFO now?"

The FCOO builds the management layer — 8 offices with no ops structure means Mauro is the ceiling on growth. The FCFO establishes the revenue baseline and location P&L; tracking that makes every future investment decision defensible. Starting paid marketing without knowing which offices are profitable is flying blind. Both solve immediate problems.
