Law Offices of Ricky Malik, P.C.

Sales Companion | August 11, 2026 | Rep: Jacob Meissner

Prospect Snapshot

Owner	Revenue	Team	Stage	Close Rate	Location
Ricky Malik	Est. $500K–$1M*	8	4 (SBM)	15% (default)	Manassas, VA

**Transcript says "sub-$1M plateau for years" — overrides HubSpot's $1.98M estimate. See workings file.*

Dominant Buying Motive: FREEDOM

Ricky wants the firm to run without him personally enforcing every SOP, so he can focus on business-level work instead of daily firefighting.

> *"Ricky is the firm's bottleneck, pulled into daily minutiae by staff who fail to follow documented SOPs."*

> *"Only 2 of 8 staff are considered 'A-players.'"*

What he wants:

- **Step back from firefighting.** SOPs followed without him enforcing them personally.
- **Make the associate hire count.** Freed-up time shouldn't get absorbed by the next fire.
- **Grow without more chaos.** 15–16 to 30 retainers/mo should mean freedom, not more fires.

What is stopping him:

- **SOPs exist but aren't followed.** Sign-offs happen; deadlines still get missed.
- **Only 2 of 8 staff are A-players.** High turnover from an unmet quality bar.
- **Spanish-accent intake bias.** Non-Hispanic callers disengage before reaching intake.
- **Zero financial visibility.** Can't confirm growth converts to profit.

Why This Operations Package (Not Marketing)

What it does for him:

- Puts a Fractional COO in place to enforce the SOPs Ricky already wrote.
- Coaching builds the 6 non-A-players into a team he can depend on.
- Matches what Ricky asked about on the call — coaching + FCOO, not marketing.

Elite Coach Plus + FCOO Advisor | $5,694/mo bundled

- Revenue overridden to est. $500K–$1M per transcript ('sub-$1M plateau') — not the $1.98M HubSpot figure.
- Under $1M revenue rules out Master's Circle by the eligibility table — this tier is correct.
- Existing SEO/Smith.ai vendor (~$5K/mo) triggers the existing-vendor override — do NOT pitch marketing.
- Team of 8 with only 2 A-players and a stated FCOO ask make this a genuine fit.

Why This AI / Automation Package

What it does for him:

- Builds the "Ricky GPT" SOP-enforcement tool he already floated — without him managing the build.
- A dedicated Fractional CTO leads it done-with-you, matching an owner with zero spare bandwidth.

Fractional CTO Level 1 (LAW) | $3,297/mo bundled

- Revenue band ($500K–$1.5M) and 8-person staff meet LAW eligibility; owner already showed AI openness.
- L1 preferred over AI Essentials — Ricky has no bandwidth to manage a DIY rollout himself.
- Foundation Sprint paired rate ($14,997 one-time) should be scoped into kickoff now.
- ESCALATION: confirm LAW delivery capacity with ops before finalizing dates.

Why This Ad Spend (Phase 2 — Not Part of This Proposal)

What it does for him:

- Converts the firm's strongest asset — trust in the Hispanic market — into volume once the team can handle it.
- Gives Ricky a lower-risk way to re-test paid channels after past PPC produced "worthless leads."

Recommended Ad Spend Range (Phase 2):

- **Conservative:** $8,000/mo — sum of immigration channel minimums across recommended channels.
- **Aggressive:** $15,000/mo — roughly 3x current combined marketing spend, not a full 20%-rule scale-up.

Estimated Return on Investment:

- **Conservative:** 12 cases x $4.5K = $54K/mo vs. $8K spend = 6.8x return.
- **Aggressive:** 28 cases x $4.5K = $126K/mo vs. $15K spend = 8.4x return.

All figures are estimates. Not guaranteed.

How the range was calculated:

- **Conservative:** Immigration minimums: PPC $3,000 + LSA $2,000 + Meta $3,000 = $8,000.
- **Aggressive:** Straight 20%-rule math on a doubled revenue goal produced ~$43K/mo and 80+ cases — unrealistic for an 8-person team, so this was scaled to ~3x current spend instead.
- This spend is deferred to Phase 2, once coaching/FCOO has SOP compliance in place — it is not part of the Phase 1 total below.

If He Pushes Back

"We already tried paid ads and they didn't work."

Past PPC produced "worthless leads" per Ricky himself — an execution/targeting problem, not proof paid channels can't work. It's also moot here: no ad spend is included in this proposal.

"We already pay for SEO and Smith.ai — why do we need more?"

This proposal doesn't add another marketing vendor. It's coaching, a Fractional COO, and a Fractional CTO — the SEO/Smith.ai relationship stays untouched.

"$8,991/month feels like a lot for something that isn't even marketing."

At an estimated $500K–$1M revenue, that's roughly 9%–18% of monthly revenue — well under the 35% cap — aimed directly at the bottleneck Ricky named himself.
