Prospect Snapshot

Owner	Revenue	Team	Stage	Close Rate	Location
Tatiana Hernandez	~\$500K (2026 pace)	Owner + 3	Stage 4	15% (default)	Beverly Hills, CA

Dominant Buying Motive: FREEDOM / BANDWIDTH

Tatiana wants a firm that generates and converts cases without every decision routing through her personally, especially during discovery-heavy litigation weeks.

"Everything routes through her, causing delays and missed opportunities."

"Acknowledged SMB Team will be higher (\$3-4k) but includes foundational organic/GBP/site work and long-term asset building."

"Prospect is open to the \$2,000-\$4,000/month range, most likely to land at \$3,000-\$4,000/month."

What she wants:

- **More bandwidth back.** She is exploring AI tools to reduce her discovery burden.
- **Consistent case volume.** Target is 5+ qualified cases/month, up from 1-2, at \$30K-\$50K+ per case.
- **A firm that runs without her micromanaging intake.** She wants delays and missed opportunities to stop.
- **Reasonable, phased investment.** She is comfortable in the \$3K-\$4K/month range.

What is stopping her:

- **Referral slowdown.** Referring attorneys keeping cases in-house pulled 2026 revenue pace to ~\$500K from ~\$1M.
- **No organic/local presence.** GBP is misconfigured (wrong category, old LA address) and zero reviews exist on Facebook/Avvo.
- **Declining paid ad quality.** The existing Spanish Google Ads campaign (~\$5K/mo + ~\$1.2K fee) is producing misqualified leads.
- **Split bilingual web presence.** hernandezlawca.com and justicieralegal.com are separate domains.
- **She personally bottlenecks intake.** No delegated process exists, especially during heavy litigation weeks.

Why This Marketing Package

What it does for her:

- Builds a real local and organic presence so new cases stop depending only on a slowing referral network.
- Fixes the GBP and review gap that is actively costing visibility against named local competitors.
- Adds Spanish PPC/social ads and bilingual site work as a long-term asset, not just a recurring ad expense.

Full Service Marketing — Essentials | \$3,497/mo bundled

- Revenue (~\$500K) is under the \$750K Essentials ceiling.
- Single location (1 Beverly Hills office) and single practice area (Employment Law) — both required for Essentials eligibility.
- Bundled price saves \$300/mo versus the \$3,797/mo stand-alone rate.
- Fits within her stated \$3,000-\$4,000/month comfort range from the call.

Why No Coaching Package Is Included

Budget-reality override applied (full detail in workings file):

- Revenue table implies Starter + Elite Coach Plus = \$8,197/mo — never discussed on the call.
- \$8,197/mo is roughly double her stated \$3,000-\$4,000/month comfort range.
- Recommendation: Essentials only (\$3,497/mo) — lowest-cost fit for her stated need.

Why This Ad Spend

What it does for her:

- Replaces declining-quality Spanish-only ads with a bilingual, better-targeted campaign.
- Keeps total spend inside both her stated budget and the Essentials tier's ad spend cap.

Recommended Ad Spend Range:

- **Conservative:** \$3,000/mo — the table's absolute minimum for any paid ads (no Employment Law row exists).
- **Aggressive:** \$5,000/mo — capped at the Essentials tier's ad spend ceiling, not a 20%-rule output (see workings file).

Estimated Return on Investment:

- **Conservative:** ~3 cases x \$40K = \$120K/mo vs. \$3,000 spend = ~40x return.
- **Aggressive:** ~7 cases x \$40K = \$272K/mo vs. \$5,000 spend = ~54x return.

All figures are estimates using a disclosed Business Law CPL proxy (no Employment Law row exists) and a 15% default close rate. Not guaranteed.

How the range was calculated:

- **Conservative:** Absolute minimum (\$3,000) x 20% cushion CPL (\$132, Business Law proxy) = ~23 leads x 15% close = ~3 cases.
- **Aggressive:** Capped at tier ad spend ceiling (\$5,000), not the 20%-rule formula — full 20%-rule math was intentionally skipped per the budget-reality override.
- Total spend at aggressive: \$8,497/mo (mgmt fee + ad spend) = ~20.4% of ~\$500K revenue. Well under the 35% cap.

If She Pushes Back

"Why isn't coaching included if we talked about scaling?"

Coaching was never discussed on the call — needs were GBP, site, SEO, reviews, and Spanish ads. We scoped to her stated budget, not the full revenue-implied bundle.

"\$3,497/mo feels like a lot on top of existing ad spend."

Her current agency fee alone is ~\$1,200/mo for declining-quality leads. This replaces it with compounding assets (GBP, SEO, reviews) she has never had.

"How do we know this reverses the revenue decline?"

Zero reviews and a broken GBP mean she is invisible where Setareh (17), Matern (19), and Blady (17) all rank. Closing that gap is the highest-leverage fix available.

"What about the AI/discovery tool interest she mentioned?"

Flagged as a minor secondary interest, not the call's focus. Positioned as a Phase 3 roadmap item once the marketing foundation is in place — not a Phase 1 add that exceeds her budget.
