Sales Companion | August 14, 2026 | Rep: Jacob Meissner

## Prospect Snapshot

| Owner         | Revenue                       | Team                 | Stage   | Close Rate      | Location           |
|---------------|-------------------------------|----------------------|---------|-----------------|--------------------|
| Joshua Kotter | \$250K-\$400K ('24-'26 proj.) | Solo (1) + paralegal | Stage 3 | 96% (per sonal) | Salt Lake City, UT |

## Dominant Buying Motive: SCALE/DOMINATE

**Josh wants \$1M+ in 12 months, 70-80% business development, and a long-term multi-attorney empire.**

"Grow from ~\$400K to \$1M+ in 12 months; shift from 100% casework to 70-80% business development."

"Core tension: aggressive marketing vs. capacity to handle the 'firehose' of new work."

### What he wants:

- **More time on the business.** Shift from casework to 70-80% business development, 10-20 cherry-picked cases.
- **Rapid scale.** \$1M+ revenue within 12 months, up from a ~\$400K 2026 projection.
- **A repeatable team.** His 96% close rate replicated across future hires, not locked in his head.
- **A long-term empire.** 5,000-10,000 attorneys globally over the next 40 years.

### What is stopping him:

- **Solo bottleneck.** Josh handles every case, intake call, and business-dev task, with 1 paralegal.
- **Paused lead channel.** The only tested channel (Google LSAs) paused 5+ weeks to manage budget.
- **No hiring blueprint.** Actively interviewing attorneys, but no onboarding process exists.
- **Zero local visibility.** Did not surface in 9 of 9 local searches across 3 practice areas.
- **Unmonetized demand.** ~6 landlord-tenant calls/day declined rather than referred for a fee.

## Why This Marketing Package

### What it does for him:

- Rebuilds the only tested lead channel (LSAs) and closes a zero-visibility gap in 3 practice areas.
- Builds the local proof (reviews, GBP, directories) needed against 100+ review competitors.
- Creates predictable lead flow before Josh can responsibly scale spend toward \$1M.

### Full Service Marketing — Starter | \$4,997/mo bundled

- 8 practice areas hide Essentials outright — Starter is the floor regardless of revenue.
- Call-purpose override: call was coaching-first — marketing presented second, per Josh's ask.
- Zero local-pack visibility and paused LSAs confirm a real, documented lead-gen gap.

## Why This Coaching Package

### What it does for him:

- Builds the hiring/onboarding blueprint before bringing on attorneys he's already interviewing.
- Documents Josh's 96% close rate into a process a future team can actually replicate.
- Builds the profit-planning habit missing today, so \$1M means real, tracked wealth.

### Elite Coach | \$2,600/mo bundled

- Transcript-stated \$250K-\$400K revenue (corrects the \$180K HubSpot estimate) fits Elite Coach.
- Call-purpose override: transcript frames this as coaching-first — lead with this package.
- Fractional CFO/COO and Legal AI Workforce are ineligible — revenue is under their \$500K floors.

## Why This Ad Spend

### What it does for him:

- Turns the firm's zero-visibility local search problem into measured, trackable lead volume.
- Gives Josh the case-flow data needed to know when hiring the next attorney is actually supported by demand.

### Recommended Ad Spend Range:

- **Conservative:** \$5,500/mo — Criminal Defense channel minimum, the highest of the 3 practice-area floors.
- **Aggressive:** \$11,500/mo — 20% rule on the \$1M/12mo goal, well under the \$20,000 Starter tier cap.

### Estimated Return on Investment:

- **Conservative:** ~6–7 cases x \$3.5K = ~\$22.75K/mo vs. \$5.5K spend = ~4.1x return.
- **Aggressive:** ~16 cases x \$3.5K = ~\$56K/mo vs. \$11.5K spend = ~4.9x return.

*Estimates only. Case value uses a blended practice-area default. Close rate defaults to 15% for ad-driven leads — the 96% figure is Josh's personal, referral-quality rate, not yet proven on cold leads.*

### How the range was calculated:

- **Conservative:** Criminal Defense PPC minimum (\$5,500), the highest single-PA floor of the three.
- **Aggressive:** \$1M goal x 20% / 12 = \$16,667, Tier 4 market (1.0x), minus \$4,997 fee = ~\$11,500.
- Conservative total (\$13,097/mo) runs 39–63% of monthly revenue — above the 35% cap. Phase 1 keeps spend minimal until revenue catches up.

## If He Pushes Back

### "We agreed to start with coaching — why quote marketing too?"

Coaching leads, as discussed. Marketing is phased in second, and Phase 1 stays minimal (GBP, reviews, directories) — not a full ad launch.

### "\$7,597/month plus ad spend feels like a lot right now."

The roadmap phases spend gradually — Phase 1 holds near the low end while the foundation and first hire land, ramping in Phase 2.

### "I already close at 96% — why coaching on intake?"

96% is Josh's personal rate — not yet a documented process a hire can replicate, which is exactly what caps the firm at one attorney.

### "Why not just turn ad spend back on now?"

LSAs ran ~\$190/lead with no team to handle the volume. Restarting before the hiring foundation exists risks the 'firehose' Josh raised on the call.
