Prospect Snapshot

Owner	Revenue	Team	Stage	Close Rate	Location
David Bliven	\$500K–\$1M est.	5 (+assoc. Aug)	4 — SM Mgr	15% / 40–73% NS	White Plains + Bronx, NY

Dominant Buying Motive: FREEDOM + FINANCIAL STABILITY

Build a firm that runs without him as the firefighter — restore cash cushion, pay himself properly, hit \$2M–\$2.5M by 2027.

"Desired outcome: on track to \$2.0–\$2.5M by 2027; add office manager, 3 VAs, 3 paralegals, 1–2 associates; restore cash cushion; pay self properly."

"Sep: 68 set/30 completed; Oct: 42/15; Nov: 43/14; Dec: 73% no-show"

What he wants:

- **Pay himself properly.** Cash cushion drained; underpaying himself despite growing revenue.
- **Systems so the firm runs without him.** KPIs and delegation — attorney, not manager.
- **August associate hire succeeds.** Onboarding framework and accountability structure built before the hire.

What is stopping him:

- **40–73% no-show rate.** Four months of declining show rate; leads arriving but not converting.
- **No KPIs anywhere.** No benchmarks for intake, paralegals, or incoming associate.
- **Paralegals billing 10 hrs/week at \$300/hr.** \$50K+ monthly billing capacity unused.
- **\$100K+ AR, no collections system.** ~\$50K collectible — money earned but not in the bank.

Why This Marketing Package

What it does for him:

- **Turns 147 reviews into rankings.** NAP cleanup converts existing review dominance into local pack visibility.
- **More calls, same budget.** Campaign optimization raises conversion from the existing 15% floor.

Full Service Marketing — Starter | \$4,847/mo bundled

- Revenue \$400K–\$1M (est. \$750K) — Starter tier correct. No escalation required.
- Firm already on SMB Team marketing; package continues and optimizes the active program.
- Tier 2 market (Westchester/White Plains) — Starter's \$15K ad spend cap is appropriate.

Why This Coaching Package

What it does for him:

- **Fixes intake without more ad spend.** Clio Grow configuration + KPI framework recovers no-show revenue.
- **Makes the August hire a win.** Onboarding framework built before the associate starts.
- **Unlocks paralegal billing capacity.** Utilization system recovers \$50K+/mo already on payroll.

Elite Coach Plus | \$3,200/mo bundled

- Revenue \$400K–\$1M, growing team — Elite Coach Plus is correct coaching tier.
- FCOO Advisor considered; recommended as Phase 2 upgrade at \$1.2M+ revenue.
- Confirm with Dan Bryant: FCOO may belong in initial proposal given August hire urgency.

Why This Ad Spend

What it does for him:

- **Top of Google for Westchester family law.** Reaches the 85% of prospects who don't call from a referral.
- **Predictable lead flow to \$2M.** Scalable channel mix David doesn't manage personally.

Range: \$3,500 (conservative) to \$14,000 (aggressive)/mo

- **Conservative:** Family Law minimums — PPC \$2,500 + LSA \$1,000 = \$3,500.
- **Aggressive:** \$750K x 20% / 12 x Tier 2 (1.3x) = \$16,250; capped at Starter \$14K limit.

Estimated ROI (not guaranteed):

- **Conservative:** ~15 leads x 20% close x \$25K = ~\$62,500/mo vs. \$3,500 = ~18x return.
- **Aggressive:** ~55 leads x 20% close x \$25K = ~\$262,500/mo vs. \$14,000 = ~19x return.
- At aggressive: \$8,047 fees + \$14,000 ads = \$22,047/mo = 35.3% of est. revenue — confirm rev first.

Case value \$25K and close rate 20% from transcript. All figures are estimates.

If He Pushes Back

"We are already on SMB Team marketing."

Same program — this continues it. The audit shows where the investment is being lost: NAP inconsistency suppresses 147 reviews from ranking, and 40–73% no-shows absorb lead cost without converting.

"The problem is operations, not marketing."

Elite Coach Plus IS the operations fix. Clio Grow configuration, intake KPI dashboard, paralegal utilization system, and August associate onboarding are all coaching deliverables. That is what converts 15% close rate to 25%+.

"I cannot afford \$8,047/month right now."

Conservative total is \$11,547/mo vs. ~\$62,500 ad revenue = 18x return. Plus the AR collections workflow recovers ~\$50K in collectible revenue already earned in the first 90 days. It funds itself if intake improves.
