

Law Office of Walter Reaves, PC

Sales Companion | August 12, 2026 | Rep: Randy Gold

Prospect Snapshot

Owner	Revenue	Team	Stage	Close Rate	Location
Walter Reaves	~\$250K/yr	2 (1 PT asst.)	Stage 3	15% (default)	Waco, TX

Dominant Buying Motive: STABILIZATION & SURVIVAL

Walter wants to stop the revenue bleed from a failed merger and rebuild a practice that does not depend on him personally answering every call.

"A failed merger cut firm revenue from ~\$600k to ~\$250k/year, creating a budget crisis."

"Cannot manage all incoming calls — describing the part-time legal assistant's intake capacity."

What he wants:

- **Stop the bleed.** Rebuild toward, and past, the pre-merger ~\$600K run rate.
- **Stop personally fielding every call.** He + one part-time assistant field 100% of intake.
- **AI Workforce support.** His original ask — see why it's Phase 3, not Phase 1.

What is stopping him:

- **No intake backup.** ~5–6 cases/month (~\$20K–\$24K) lost to missed/unfollowed calls.
- **No follow-up sequence.** Leads who don't sign on the first call aren't contacted again.
- **Revenue floor.** Legal AI Workforce requires \$500K+ revenue — not eligible yet.

Why No Marketing Package (Yet)

What it does for him:

- Keeps spend inside what the firm can sustain during a stated budget crisis.
- Avoids paying for ad-driven calls before intake can convert them.

No Marketing Package in Phase 1 | Deferred to Phase 2

- package_decision.json estimated revenue at \$570K (HubSpot) — corrected to the transcript's ~\$250K figure.
- Budget-Reality Override applies: explicit budget crisis, current spend ~\$800/mo.
- Essentials (\$3,497/mo) + ad floor (\$3,000/mo min) would exceed the firm's 35% cap (~\$7,292/mo at \$250K/yr).
- LSA reactivation queued for Phase 2, once intake can convert what it generates.

Why This Coaching Package

What it does for him:

- Gives Walter and the assistant a defined follow-up process instead of losing cases to gaps.
- Builds the financial visibility needed to rebuild deliberately, not just react to the merger.

Elite Coach | \$2,600/mo bundled

- Revenue ~\$250K/yr places the firm in the \$250K–\$400K Elite Coach band (corrected from \$570K estimate).
- Team size is 2 — matches Elite Coach's "any team size" eligibility. Clears the \$2,497 minimum MRR floor.
- Call-Purpose Override: the call was about AI Workforce, not marketing — coaching fits the actual need.

Walter Reaves — Sales Companion (continued)

Why No Ad Spend (Yet)

What it does for him:

- Nothing is spent on ads in Phase 1 — every dollar goes toward stabilizing the practice first.
- Protects the firm from committing marketing dollars before intake can convert the leads they'd generate.

Recommended Ad Spend Range (Phase 2, not a Phase 1 ask):

- **Conservative:** \$2,000/mo — reactivating the Criminal Defense LSA minimum, a channel the firm already ran.
- **Aggressive:** \$12,000/mo — full 20%-rule/reverse-math target against the \$500K revenue goal.

Estimated Return on Investment (estimates — not guaranteed):

- **Conservative:** ~1.6 cases x \$4,000 = ~\$6,250/mo vs. \$2,000 spend = ~3.1x return.
- **Aggressive:** ~10.6 cases x \$4,000 = ~\$42,400/mo vs. \$12,000 spend = ~3.5x return.

All figures are estimates. Not guaranteed.

How the range was calculated:

- **Conservative:** Criminal Defense LSA minimum \$2,000; blended CPL ~\$192 (20% cushion).
- **Aggressive:** \$500K goal x 20% / 12 = \$8,333 (Tier 4); reverse math is higher at ~\$11,800, rounded to \$12,000.
- At the \$500K goal, total (\$14,600/mo) = 35% of goal revenue. Not viable at today's \$250K (~70%) — a future target, not a Phase 1 spend.

If He Pushes Back

"I called about AI Workforce — why isn't that in this proposal?"

LAW requires \$500K+ revenue; the firm is at ~\$250K. Phase 3 adds AI Essentials once eligible — the fastest legitimate path back, not a no.

"\$2,600/mo feels like a lot during a budget crisis."

It's our base coaching tier, just above the \$2,497 floor. The 5–6 lost cases/month (~\$20K–\$24K) is nearly 10x the coaching cost.

"Why isn't marketing part of this if competitors are pulling ahead?"

A marketing tier now (\$3,497/mo + \$3,000+/mo ad floor) would blow past the firm's 35% cap at \$250K/yr. Phase 2 reactivates LSAs once intake can convert the calls.

Investment At A Glance

Elite Coach

Weekly coaching, practice masterminds, intake and financial-visibility focus.

\$2,600/mo

~~\$3,497~~ stand alone

Recommended Ad Spend (Phase 2)

Goes to Google/LSA — not to SMB Team. Deferred until intake is stable.

\$2,000–\$5,000/mo

Total Phase 1 MRR: \$2,600/mo (no ad spend yet) | Save \$897/mo vs. stand-alone | 12.5% of current \$250K/yr revenue (well under 35% cap)
