The Fusselman Law Firm, P.C.

Sales Companion | October 22, 2026 | Rep: Jacob Meissner

Prospect Snapshot

Owner	Revenue	Team	Stage	Close Rate	Location
Christopher Fusselman	~$550K–$650K	6 staff	Stage 3	Not stated	Houston, TX

Dominant Buying Motive: FREEDOM

He wants the firm to work for him, so his time goes to trial work, not paper work.

> *"I got to decide if I want to keep working for the firm or if I want the firm to work for me."*

> *"I like negotiating. I like taking depositions, going to trial."*

> *"My target is I want to work for the most inexperienced person so that I know. Now it will work easily for an experienced person."*

What he wants:

- **The firm works for him.** He wants out of the work he should not be doing.
- **Paper work gone.** New-file documents turned into petitions, affidavits and damages.
- **Post-judgment on autopilot.** Lien, execution and sale steps move without someone saying go.
- **A turnkey firm.** One that works for an experienced person or a future buyer.

What is stopping him:

- **No bandwidth.** He said he is already overwhelmed, so anyone adding projects must lead them.
- **Funding.** No budget number given, but he said it depends on his ability to fund it.
- **Two systems.** AI output must save to both FileVine and the F drive.
- **Plateau.** Revenue has held near $550K–$650K for five to six years.
- **Drift.** Binder-based procedures drift and there are no KPIs.

Why Fractional CTO Level 1

What it does for him:

- Puts an expert in charge of the AI rollout so he does not have to run it.
- Turns his wish list into automations, one at a time.
- Keeps lawyers reviewing the big files while AI handles the paper.

Fractional CTO Level 1 | $3,297/mo bundled

- The call was about Fractional CTO and AI, and Jacob named Level 1 over 12 months.
- Revenue near $600K clears the $400K Level 1 floor.
- Seller override: Level 1 plus AI Workforce Pro only. No marketing or coaching.
- Monthly: one 1:1, up to 2 skills, up to 1 custom automation. Stand-alone is $3,797.

Why AI Workforce Pro (6 Seats)

What it does for him:

- Gives all six staff an AI workspace for repeatable document work.
- A weekly implementation session keeps the team moving without him.

AI Workforce Pro, 6 seats | $1,717/mo bundled

- Jacob said all six employees can have access; the team count comes from his recap.
- $1,597 covers 5 users, plus $120 for the sixth seat.
- Yearly contract with 20M total credits. No stand-alone price exists.

Why No Marketing or Ad Spend

What it does for him:

- Protects him from more volume; Jacob noted the firm is at capacity.
- Keeps the budget on the AI work he asked for.

What Was Left Out:

- **Marketing and coaching:** The seller override excludes both.
- **Ad spend:** None scoped, so there is no ROI projection.

If Marketing Comes Back Later:

- He raised AI-assisted outreach and AEO; revisit once capacity opens (Phase 3).
- Free quick wins first: fix the Google profile website link and add reviews.

No ROI figures are given because no ad spend is recommended.

Verify before the call:

- Competitor review counts are unconfirmed, so quote none. Only his 4 reviews at 2.8 stars are confirmed.
- Local pack, ads, LSA and Meta were not observed. Speed scores are local Lighthouse (40 mobile, 77 desktop).
- Revenue came from Jacob's recap. Confirm it, and confirm LAW delivery has launched.
- Open item from the call: confirm F drive and VPN routing.

If He Pushes Back

"I'm already overwhelmed."

The Level 1 Fractional CTO leads the rollout. His part is one monthly session, and work starts with the document prep he named.

"I don't know what it costs, and it comes down to my ability to fund it."

$5,014/mo is about 9%–11% of his revenue, with no marketing or coaching added. Level 1 is the lowest Fractional CTO tier. No price was quoted on the call, so lead with value.

"Everything has to save to both FileVine and the F drive."

Agreed. That routing is mapped in the first monthly session before anything is automated, and lawyers still review the big files.
