Prospect Snapshot

Owner	Revenue	Team	Stage	Close Rate	Location
Sean Quinn	Est. \$570K (not stated)	3+ staff	Stage 4	15% (default)	Philadelphia PA + NJ

Dominant Buying Motive: SCALE AND DOMINATE

Sean wants to win Philadelphia PI market share by automating intake and building owned digital channels before competitors with the same manual constraints do it first.

"2-3 qualified leads per month lost due to after-hours manual intake process — ~\$45k/month in potential revenue"

"high cost of leads in the saturated Philly market"

What he wants:

- **50-75 new cases in 6 months.** Stated goal — aggressive, specific, tied to \$750K-\$1.1M in new revenue.
- **AI-powered intake automation.** Pro-AI; wants custom automations on the existing Nextiva/Case Status stack.
- **Stop losing after-hours leads.** Knows the cost exactly — \$30K-\$45K/month — and wants it eliminated.

What is stopping him:

- **Manual after-hours intake.** Cases cannot be signed without a computer — structural bottleneck, not a staffing issue.
- **2-3 hours/day of manual follow-up.** Intake Manager at capacity; no room to scale with more leads.
- **No owned paid marketing.** No Google Ads, LSA, or Meta Ads across any of 3 practice areas.

Why This Marketing Package

What it does for him:

- Replaces expensive third-party leads with owned digital channels — lower CPL, predictable, scalable.
- Puts Quinn in LSA at 4.9 stars — the top Google placement — before competitors with lower ratings claim those spots.

Full Service Marketing — Starter | \$4,847/mo bundled

- PI firm: Essentials hidden — Starter is minimum. Philadelphia = Tier 1 mega market (6M DMA).
- Rebuild needed: mobile PageSpeed 73/100, contact form buried, no geo pages for 5 of 7 offices.
- Starter ad spend cap (\$25,000/mo) matches aggressive ad spend calculation of \$23,653/mo.

Why This Coaching Package

What it does for him:

- Gives Sean the accountability structure to execute on the 50-75 case goal — not just generate leads for it.
- Connects Sean with PI attorneys who have hit similar targets — proven playbooks, not theory.

Elite Coach Plus | \$3,200/mo bundled

- Revenue \$400K-\$1M: Elite Coach Plus is the indicated coaching tier.
- 7-office firm with manual processes needs structured coaching to build team independence at scale.
- Monthly accountability reviews tied to signed-case targets — keeps the team on pace with the 6-month goal.

Why This Ad Spend

What it does for him:

- Conservative \$10K/mo generates an estimated 2-3 cases/month — covers the \$8K/month in lost after-hours revenue within weeks.
- Aggressive \$25K/mo targets 8-9 cases/month — aligning directly with the stated goal of 50-75 cases in 6 months.

Recommended Ad Spend Range:

- **Conservative:** \$10,000/mo — PI high-competitiveness hard floor; Google PPC \$6K + LSA \$2K + Meta \$2K.
- **Aggressive:** \$25,000/mo — 20% rule: $\$1.14\text{M goal} \times 20\% / 12 \times 1.5$ (Tier 1) - fee = \$23,653; capped at Starter max \$25,000.

Estimated Return on Investment:

- **Conservative:** ~19 leads / \$529 blended CPL. 15% close = 2-3 cases x \$15K = \$37,500/mo vs. \$10K spend = ~3.5x-4x return.
- **Aggressive:** ~57 leads / \$441 blended CPL. 15% close = 8-9 cases x \$15K = \$127,500/mo vs. \$25K spend = ~5x return.

All figures are estimates based on Philadelphia PI market benchmarks. Not guaranteed. Case value uses \$15K floor stated by client. Close rate uses 15% default.

How the range was calculated:

- **Conservative:** PI high-competitiveness floor \$10,000 (exceeds channel minimums: PPC \$6K + LSA \$2K + Meta \$1.2K = \$9.2K).
- **Aggressive:** $\$1.14\text{M goal} \times 20\% / 12 = \$19\text{K} \times 1.5$ (Philly Tier 1) = \$28.5K minus \$4,847 fee = \$23,653; rounded to \$25K cap.
- Total at aggressive: $\$8,047 + \$25,000 = \$33,047/\text{mo} = 34.8\%$ of \$95K monthly goal revenue. Under 35% cap at goal revenue.

If He Pushes Back

"The Philly market is too saturated — I'm already paying for leads and not getting enough."

Pay-per-lead has no ceiling on cost. Owned channels (Google Ads, LSA) have predictable CPLs — \$210-\$260 on LSA vs. \$100-\$140 CPC. Quinn's 4.9 stars is the strongest rating in the market; those leads convert better once they arrive.

"\$8,047/month feels like a lot."

The firm is already losing \$30K-\$45K/month in confirmed after-hours leads. Recovering 3 lost leads/month at \$15K covers the full SMB investment — before a single new paid case is generated.

"I want to think about the coaching piece separately."

Marketing generates the leads; coaching builds the intake system and team accountability that signs them. If the leads arrive before the system is ready, you have a more expensive version of the same problem.
