

Salam & Associates, P.C.

Sales Companion | August 10, 2026 | Rep: Jacob Meissner

Prospect Snapshot

Owner	Revenue	Team	Stage	Close Rate	Location
Fatima Salam	\$4M hist. / ~\$2M proj.	Small, underperf.	Stage 3	N/A (15% default)	Richardson, TX

Dominant Buying Motive: FIRM AUTONOMY / RETIREMENT

Fatima wants the firm to run itself so she can retire from daily operations and run a new NGO.

"Make the firm self-managing so Fatima Salam can retire from daily operations and run a new NGO."

"Team coaching and custom AI automation to fix operations before investing in marketing."

What she wants:

- **Step back from daily operations.** Stop catching every mistake on every file herself.
- **Fix operations before marketing.** Coaching and AI automation first, ad spend later.
- **Automate the repetitive work.** Fatima GPT, case notes, and a retention drip campaign.
- **Eventually retire and run her NGO.** The end goal behind this proposal.

What is stopping her:

- **She does ~75% of the work herself.** No accountability structure exists behind her.
- **Intake is losing ~5 cases/month (~\$600K/year).** Slow follow-up, no after-hours coverage.
- **Revenue is in freefall.** \$4M -> ~\$2M projected, case volume ~400/yr -> ~175/yr.
- **Past marketing failed.** Walker, Geyser, and old Google/Facebook ads underperformed.

Why This Coaching Package

What it does for her:

- Builds the accountability structure the team has never had, led by Peter Schultz.
- Directly matches what she asked for on the call — not a substituted product.

Elite Coach Plus | \$3,200/mo bundled

- Revenue \$1M+ (current effective ~\$2M) with a team under 5 matches this tier exactly.
- Stand-alone price is \$3,497/mo — bundled saves \$297/mo.
- Master's Circle not used: requires 5+ team with dedicated staff, which this firm lacks.

Why This Legal AI Workforce Package

What it does for her:

- Builds the custom 'Fatima GPT' SOP assistant she asked about on the call.
- Automates case notes, document tracking, and catching gaps like missing radiology bills.

Legal AI Workforce — Fractional CTO L2 | \$4,997/mo bundled

- Revenue band \$1.5M–\$3M fits current effective revenue (~\$2M) and the growth goal (~\$2.4M).
- Multiple concurrent builds (Fatima GPT, case/doc tracking, drip campaign) match L2's cadence, not L1.
- Fatima has ~zero spare bandwidth — a dedicated Fractional CTO fits better than a DIY tier.
- Paired with the Foundation Sprint (\$14,997 one-time, saves \$5,000 vs. \$19,997 stand-alone).

Salam & Associates – Sales Companion (continued)

Why Marketing Comes Later

What it does for her:

- Protects future ad spend from leaking into the follow-up process losing ~5 cases/month today.
- Matches what she asked for on the call – operations and coaching first, marketing second.

No Ad Spend in Phase 1:

- \$0 ad spend recommended now – marketing is a Phase 2 roadmap item, not a Phase 1 line item.
- Full Service Marketing – Growth (\$7,497/mo) is the next tier once intake/coaching are proven.

Phase 2/3 Planning Reference (internal only):

- **Conservative:** \$10K/mo -> ~1.8 cases/mo -> ~\$13.3K/mo = 1.33x return.
- **Aggressive:** \$50K/mo (Growth tier cap) -> ~16.6 cases/mo -> ~\$124.9K/mo = 2.50x return.

Estimates use default close rate (15%) and case value (\$7,500) – not stated on call.

Escalation – confirm before proposing:

- Confirm LAW delivery has launched and has capacity before finalizing Fractional CTO L2.

If She Pushes Back

"Why coaching and AI before marketing when case volume is declining?"

Slow follow-up is already losing ~5 cases/month (~\$600K/year) from leads the firm already has – new marketing spend on top of that leak would be wasted before intake is fixed.

"We tried paid ads and vendors before and they failed."

Walker, Geyser, and the 3-4-year-old Google/Facebook campaigns likely failed in part because there was no reliable intake process to convert what they generated – the same gap this proposal fixes first.

"Is \$8,197/mo affordable given revenue is falling?"

\$8,197/mo is about 4.9% of current effective monthly revenue (~\$166,667/mo at ~\$2M/yr) – well under the 35% cap even at the lower, declining revenue figure.

Investment At A Glance

Elite Coach Plus

Full-team coaching led by Peter Schultz.

\$3,200/mo

~~\$3,497~~ stand alone

Legal AI Workforce – Fractional CTO L2

Fatima GPT, case/doc tracking automation, drip campaign.

\$4,997/mo

~~\$5,797~~ stand alone

Recommended Ad Spend

None – deferred to Phase 2

Marketing is a future roadmap phase, not part of this Phase 1 deal.

Total: \$8,197/mo + \$14,997 one-time | Save \$1,097/mo + \$5,000 one-time by bundling | ~4.9% of current monthly revenue (under 35% cap)
