Dominant Buying Motive: SCALE AND DOMINATE

Tom wants \$2M in 2-3 years, associate hires, and a firm that grows without the partners personally driving every client relationship.

"Growth is entirely from referrals, not targeted marketing."

"60-70% of revenue from 1-2 clients — a referral lull after settling cases exposed the vulnerability."

What he wants:

- **Predictable lead flow.** A pipeline that does not depend on the right referral arriving this month.
- **\$2M within 2-3 years.** Specific goal stated on the call — to enable associate hires and reduce founder dependency.
- **Diversified revenue.** End the 60-70% client concentration so the firm can plan and invest without catastrophic risk.

What is stopping him:

- **No marketing system.** Every new client comes through referrals — zero digital presence confirmed in any channel.
- **Broken intake.** Form leads route to a third party who does not forward them; partners handle intake with no process.
- **No financial roadmap.** The \$2M goal exists; the documented path by practice area and market does not.

Why This Marketing Package

What it does for him:

- Replaces the referral network with a marketing engine generating 8-10 new client opportunities per month.
- Builds GBP authority in all four markets while competitors hold those positions uncontested.

Full Service Marketing — Starter | \$4,847/mo bundled

- Revenue \$900K confirmed in Starter tier (\$400K-\$1M); HubSpot estimate and stated figure both in range.
- Three practice areas across four markets fit Starter multi-channel scope (Google Ads, LSA, Meta, SEO).
- Website needs conversion work (buried form, no landing pages) — included in Starter before ad dollars flow.

Why This Coaching Package

What it does for him:

- Builds the intake protocol that converts marketing leads — not just generates them.
- Creates the \$900K-to-\$2M financial roadmap so hiring and investment decisions have a documented foundation.

Elite Coach Plus | \$3,200/mo bundled

- Revenue and stage (\$400K-\$1M, Stage 4) map to Elite Coach Plus for the referral-to-system transition.
- Intake protocol development directly fixes the contact form routing issue and the ad-hoc partner process.
- Weekly group coaching and practice area masterminds connect the firm with peers who solved the same challenges.

Why This Ad Spend

What it does for him:

- Puts Kreiner Burns in front of high-intent commercial and employment prospects in NJ and PA from day one.
- At 3-8 cases/month from \$3,500-\$7,000, the ROI closes the \$900K-to-\$2M gap far faster than referrals alone.

Recommended Ad Spend Range:

- **Conservative:** \$3,500/mo — channel minimums for commercial litigation and employment in NJ/PA.
- **Aggressive:** \$7,000/mo — full Starter tier capacity across all three practice areas and four markets.

Estimated ROI (estimates only — not guaranteed):

- **Conservative:** ~3-4 cases x \$5,000 = ~\$17,500/mo vs. \$3,500 spend = ~5x return.
- **Aggressive:** ~8-9 cases x \$5,000 = ~\$42,500/mo vs. \$7,000 spend = ~6x return.

Case value is a default for commercial litigation — not stated on call.

How the range was calculated:

- **Conservative:** Business law minimums: PPC \$1,500 + LSA \$1,000 + Meta \$1,000 = \$3,500.
- **Aggressive:** \$2M target x 20% / 12 x 1.5 (Tier 1 geo) = \$50,000; capped at Starter limit of \$7,000.
- Total at aggressive: \$15,047/mo = 20.1% of revenue. Under the 35% cap.

If He Pushes Back

"We've always grown through referrals."

The referral model produced \$700K to \$900K — and a recent lull after settling cases exposed how fragile it is. At 60-70% in 1-2 clients, one departure wipes out \$540K-\$630K with no replacement system. Referrals got them here; they cannot get them to \$2M.

"Marketing leads won't close at 75-80%."

Correct — Tom said so. That is why intake is part of the plan. A triage protocol qualifies marketing leads before they reach a partner, protecting close rates while scaling volume. The 75-80% rate proves the partners can close; the problem is how many qualified leads actually reach them.

"The price is a lot for a firm our size."

At \$75K/month revenue, the \$8,047 management fee is 10.7% of monthly income — well under the 35% cap. Add \$3,500 conservative ad spend and total is 15.4%. At 3-4 cases/month from those ads, the spend pays for itself. Plus the firm is already losing leads from the broken form — fixing that costs nothing.
