| Joshua Dorcey | $8–9M | 36 (28+8) | Stage 4 | 70–90% | Fort Myers, FL |

## Dominant Buying Motive: SCALE AND LOCAL DOMINANCE (INFERRED)

**Be the firm his town considers first, and grow 25–30% with no new FTEs.**

> *"our model and philosophy is we don't want anybody in our town to hire another law firm without at least considering us first."*

> *"I like going for 25, 30% growth if I can, but I want to do it without adding any more FTEs."*

> *"I'd like to get us up to the $350,000 to $400,000 per FTE."*

### What he wants:

- **Local dominance.** Be the first firm his town considers, in all four offices.
- **Growth without headcount.** 25–30% in 2027 with no new FTEs.
- **More output per person.** Lift revenue per FTE from about $300K to $350–400K.
- **Lead generation.** His own words: "it would probably be lead generation."

### What is stopping him:

- **No source tracking.** He says there is no way to tell where many clients come from.
- **Small online channel.** Google and social made about $600K. Paid or organic is unknown.
- **Peak-season staffing.** Staffed for Jan–May, so capacity sits idle about 7 months.
- **Trust concern.** Associate Casey Williams tried SMB Team early and was unhappy.
- **Peer-group worry.** He does not want a room of only estate planning attorneys.

## Why This Marketing Package

### What it does for him:

- Adds a measurable online engine beside referrals, so every inquiry has a source.
- Fills the slower months with consults his team already has room to handle.
- Gives each of the four offices its own search presence.

### Full Service Marketing Growth | $7,497/mo bundled

- Seller chose Growth (Oct 16). Revenue table says Platinum at $8–9M. Be ready to explain.
- Growth covers up to 4 Google Business Profile locations. He has 4 offices.
- Growth includes 15,000 words of launch content and review generation.
- Site is solid (mobile 72, 7 attorney bios), so no rebuild is proposed.

## Why This Coaching Package

### What it does for him:

- Puts him in a weekly peer room focused on output per person.
- Adds accountability for the 25–30% goal without hiring.
- Builds on trust: Brad Galbraith, a current member, referred him.

### Master's Circle | $4,600/mo bundled

- Needs $1M+ revenue, 5+ team. Met; confirm a dedicated ops or intake person.
- It was described on the call but never priced, so expect price questions.
- Confirm the cohort mix before promising a room that is not estate-only.
- Coaching is secondary. Lead with the lead-gen audit.

## Why This Ad Spend

**What it does for him:**

- Puts paid search behind the estate planning and probate searches his team has room to handle.
- Shows him cost per signed client by channel, which he cannot see today.

**Recommended Ad Spend Range:**

- **Conservative:** $3,500/mo — estate planning Google search minimum.
- **Aggressive:** $14,000/mo — four times the floor, well inside the $50K Growth cap.

**Estimated Return on Investment:**

- **Conservative:** 3 cases x $8K = $24K/mo vs. $3.5K spend = 6.9x return.
- **Aggressive:** 16 cases x $8K = $128K/mo vs. $14K spend = 9.1x return.

*All figures are estimates. Not guaranteed.*

**How the range was calculated:**

- **Conservative:** Estate planning minimum, Google PPC $3,500. Meta retargeting is upside, not counted.
- **Aggressive:** $14,000 from the package file. The 20% rule on a $10.5–11.7M goal gives about $175K+, over the $50K cap, so it was not used.
- Leads: $135 midpoint CPL (+20% cushion on conservative). Case value $8K from Josh. Close rate 15% on raw leads.
- Total spend at aggressive: $26,097/mo = 3.7% of revenue. Under the 35% cap.

## If He Pushes Back

**"We close 70–90% of consults. Why are your case numbers so low?"**

That rate is for consults and leans on referrals. Raw paid leads include calls and forms that never reach a consult, so we model 15%.

**"A colleague tried you early on and was not happy."**

He said "I don't hold you to that." Acknowledge it, ask what went wrong and what he would need to see this time.

**"Our clients come from referrals. Do ads even work for us?"**

Referrals are a strength. But Google and social made about $600K and nobody can say what drove it. Tracking comes first, so he sees what pays.
