South Atlanta Family Law

Sales Companion | November 5, 2026 | Rep: Jacob Meissner

Prospect Snapshot

Owner	Revenue	Team	Stage	Close Rate	Location
Janice F. Alfred, Esq.	Not stated; goal $1.5M	~9	4	Not stated	Stockbridge, GA

Dominant Buying Motive: SCALE

She wants $1.5M without building a whole new attorney and paralegal team (inferred).

> *"We need to get more … cases, but then … if we get more cases, … I'd have to hire another, set up another attorney and paralegal team."*

> *"One of the biggest things that I would like to get done is to be able to do a workflow, in [MyCase], so that everything just becomes automatic."*

What she wants:

- **Self-running workflows.** Top ask: automate MyCase workflows.
- **Growth without a second team.** More cases, no new hires.
- **Clients who pay.** Fewer who sign, then cannot afford the fee.
- **The $1.5M goal.** She said, "We have not met our goals at all."

What is stopping her:

- **DIY has failed.** "I can't do it," after a few tries.
- **Client-data worry.** She paused the MyCase-Claude link.
- **Cost.** MyCase is "expensive as hell" at $120 per user.
- **Integration doubt.** Limits are unknown. That is your action item.
- **Pitch claims.** SOC 2, 60+ skills, and 7-8x returns are unproven.

Why This AI Workforce Package

What it does for her:

- Gives her nine people AI help on repeat work, so no second team.
- Makes her Claude and ChatGPT drafting a team-wide habit.
- The weekly session is the help she lacked on her own.

AI Workforce Pro (9 users) | $2,077/mo (no stand-alone price)

- Nine seats from the call. Confirm a tenth for her marketing manager (+$120/mo).
- $1,597/mo covers 5 users, plus $120/mo for each of the 4 more.
- Yearly agreement. 20M credits. Overages $150/mo.
- Confirm LAW delivery has launched before sending.

Why This Fractional CTO Package

What it does for her:

- Builds the workflows she could not build alone.
- Leads the rollout so client-data choices go step by step.
- Keeps her on the firm, not the tools.

Fractional CTO Level 1 | $3,297/mo bundled

- Revenue is a HubSpot band ($961K-$3M). Level 1 needs $400K+.
- One monthly 1:1, up to 2 skills, up to 1 custom automation.
- Bundling saves $500/mo versus $3,797 stand-alone.
- Seller chose this in Slack. Marketing and coaching were removed.

South Atlanta Family Law — Sales Companion (continued)

Why No Ad Spend

What it does for her:

- Keeps this engagement on the AI work she came in for.
- Puts the first months into capacity, so extra cases land on a team that can take them.

Recommended Ad Spend Range:

- **Conservative:** $0. No marketing package is in this proposal.
- **Aggressive:** $0. Her Meta ads run in-house and Google Ads run through her website provider.

Estimated Return on Investment:

- No ROI built. There is no ads package, no stated case value, and no stated close rate.

No projections are given. Nothing here is a guarantee.

Open items before the call:

- **Reviews:** Her 4.6 stars and 107 reviews are unconfirmed. Verify live before quoting.
- **Not observed:** GBP, 3-pack, Google Ads, LSA, and Meta Ad Library were not checked. Urgency 5 is provisional.
- **Lead gen:** She said "We need to get more … cases." Phase 2 flags lead gen for later.

If She Pushes Back

"MyCase is already expensive. Why add more?"

MyCase is about $1,080/mo (9 x $120). The cost she named for growth is a second attorney and paralegal team. This is built to avoid that.

"I do not know how the AI will use our client information."

Her words: "we have client stuff in there." Offer a step-by-step rollout led by the Fractional CTO. Get the security answer in writing before you cite SOC 2.

"I already tried to automate this myself."

She said "I can't do it" after a few tries. The monthly 1:1 and weekly implementation session are the help she did not have.

Investment At A Glance

AI Workforce Pro (9 users) 5 users at $1,597 plus 4 more at $120 each.	**$2,077/mo** no stand-alone price
Fractional CTO Level 1 Monthly 1:1, up to 2 skills, up to 1 custom automation.	**$3,297/mo** ~~$3,797~~ stand alone
Recommended Ad Spend No marketing or ad spend is part of this proposal.	**None**

Total: $5,374/mo | Save $500/mo | 2.1%–6.7% of revenue (under 35% cap)
