Prospect Snapshot

Owner	Revenue	Team	Stage	Close Rate	Location
Cole Reynolds (Founder)	\$1M/yr	5 attorneys, 0 staff	Stage 4	15% (default)	Cincinnati, OH

Dominant Buying Motive: FREEDOM

Cole wants the firm's growth and the planned acquisition to run through systems, not through the five partners personally — keeping the lean economics while buying back his own time.

"10-20% overhead"

"Cincinnati SEO success"

"offload operational tasks completely"

What he wants:

- **Keep the lean model intact while growing.** Not trade the 10-20% overhead advantage for headcount just to scale.
- **Absorb the planned acquisition without personal burden.** Add another firm's staff and tech stack without adding his own hours.
- **Offload repeatable operational work.** Stated interest in AI agents to "offload operational tasks completely."
- **Stop depending on one lead channel.** Build a second channel so growth doesn't live or die on organic SEO alone.

What is stopping him:

- **Zero support staff.** Every function outside legal work runs through five partner-attorneys.
- **Single lead channel.** 100% of leads come from organic SEO, with no paid channel as backup.
- **No intake process.** Inquiries go straight to a partner's desk with no tracking or after-hours coverage.
- **Thin review footprint.** An estimated 5-7 reviews versus Kinetic Law's 36 and Manley Burke's 43.
- **No profitability visibility by practice area.** Average case value and acquisition cost are not tracked.

Why This Marketing Package

What it does for him:

- Adds a second, controllable lead channel so growth doesn't depend on SEO alone.
- Positions the firm above Kinetic Law and Manley Burke in paid search and name-based conquering.
- Frees the firm from organic visibility being its only growth lever.

Full Service Marketing — Growth | \$7,397/mo bundled

- Revenue is \$1M/year, squarely inside the \$1M-\$3M Growth tier band.
- Growth's \$50,000 ad spend cap comfortably covers the recommended \$3,500-\$14,000/mo range.
- Firm currently runs zero paid channels — Full Service (SEO, ads, conquering) matches this ground-zero starting point.
- Buried contact form and stale blog need conversion and content work that a marketing-only add-on wouldn't cover.

Why This Coaching Package

What it does for him:

- Builds the delegation plan that turns five solo-operating partners into a firm that can absorb the planned acquisition.
- Gives structured accountability for building an intake process where none exists today.
- Connects the firm with other growth-stage owners solving the same lean-but-stuck problem.

Elite Coach Plus | \$3,200/mo bundled

- Revenue is \$1M+ with a team under 5 with no dedicated ops/marketing/intake staff — Master's Circle requires 5+ WITH dedicated staff, not met here.
- No profit problems were flagged on the call, so a Fractional CFO/COO add-on is not warranted yet.
- Elite Coach Plus is the correct fit per the eligibility table for \$1M+ revenue, under-5-team firms.

Why This Ad Spend

What it does for him:

- Establishes a second lead channel so the firm stops depending entirely on organic rankings it doesn't control.
- Captures comparison-stage prospects actively searching Kinetic Law and Manley Burke by name.

Recommended Ad Spend Range:

- **Conservative:** \$3,500/mo — Business Law Google PPC channel minimum (transactional firms lead with search, not LSA/Meta).
- **Aggressive:** \$14,000/mo — 20% rule against a \$2M revenue goal, adjusted for Cincinnati (Tier 4) and the Growth management fee.

Estimated Return on Investment:

- **Conservative:** ~4 cases x \$5K = \$20K/mo vs. \$3.5K spend = 5.7x return.
- **Aggressive:** ~19 cases x \$5K = \$95K/mo vs. \$14K spend = 6.8x return.

Case value uses the general Business Law benchmark (\$3K-\$7K), since the firm's actual average M&A/GC engagement value was not stated on the call. All figures are estimates. Not guaranteed.

How the range was calculated:

- **Conservative:** Business Law Google PPC floor = \$3,500/mo (LSA/Meta not primary channels for this practice area).
- **Aggressive:** \$2M goal (2x current revenue, no stated target) x 20% / 12 = \$33,333. Tier 4 (1.0x), minus management fee, nets to the approved \$14,000/mo figure.
- Total spend at aggressive: \$14,000 + \$10,597 = \$24,597/mo = 29.5% of \$83,333 monthly revenue. Under the 35% cap.

If He Pushes Back

"We're already growing fine on SEO — why add paid spend?"

Cincinnati SEO success is real, but it's the firm's only channel. Kinetic Law (36 reviews) and Manley Burke (43 reviews) are already out-publishing and out-reviewing the firm 5x over — a second channel protects growth if that one channel ever softens.

"We run a lean shop — I don't want more overhead."

The \$10,597/mo investment is about 12.7% of monthly revenue (\$83,333) — in line with the discipline the firm has already built, not a departure from it.

"We don't have staff to manage a coaching engagement."

Elite Coach Plus is built for firms without a dedicated ops team — it's structured coaching and accountability, not another hire.

"Will this actually help fund the acquisition we're planning?"

At the aggressive ad spend level, projected ad-driven revenue alone (\$95K/mo) covers the full marketing investment several times over, before the acquired firm's own book of business is even counted.
