O'Brien Legal

Sales Companion | November 5, 2026 | Rep: Nick Holderman

Prospect Snapshot

Owner	Revenue	Team	Stage	Close Rate	Location
Corey D. O'Brien	$1.6M projected 2026	6 FT + PT drafters	Stage 4	70% in room	Moosic, PA

Dominant Buying Motive: SCALE

Corey wants all 50 states by 2029 without hiring in step with growth or carrying recurring chores himself.

> *"by the end of 2029, I want to be in all 50 states."*

> *"I believe I can drive significant growth in the firm, leveraging AI in every way known to mankind."*

> *"it's one less thing that I have to do."*

What he wants:

- **AI across the firm.** He sent a 13-agent blueprint: marketing agent first, chief of staff second, research and drafting third.
- **Growth without heavy hiring.** He said he cannot do a lot of hiring and put everything into marketing.
- **Fewer recurring chores.** He records about 30 videos a session and wants that and follow-up off his plate.
- **Clear data.** He cannot see which calls became clients or which marketing drove them.

What is stopping him:

- **Cost sensitivity.** He said there is no expendable capital and he will judge this on cost.
- **DIY lean.** He said he can do much of this for free with help from a few people.
- **Happy with vendors.** He uses five or six marketing firms and will not hire us to run ads.
- **ChatGPT loyalty.** His business account has worked best; he tried Claude and Grok only briefly.
- **Tool sprawl.** About ten systems do not talk to each other, and follow-up depends on memory.

Why Fractional CTO Level 1

What it does for him:

- Puts a dedicated expert in charge of the AI rollout so Corey does not have to run it himself.
- Turns his 13-agent blueprint into a monthly build list of skills and automations.
- Moves reminders and follow-up off busy people's memory and into automations.

Fractional CTO Level 1 | $3,297/mo bundled

- Seller override (Slack, Nov 4) set this package; the seller's choice stands.
- His $1.6M stated revenue clears the $400K minimum. Level 2 also fits on revenue ($1M+).
- Level 1 means one monthly fCTO session, up to 2 skills, and up to 1 custom automation.
- Stand-alone is $3,797. Bundling with AI Workforce Pro saves $500/mo. Setup fee is $0.

O'Brien Legal — Sales Companion (continued)

Why AI Workforce Pro

What it does for him:

- Gives the team a managed AI workspace and a weekly implementation session between fCTO calls.
- Keeps AI adoption moving without Corey managing it day to day.

AI Workforce Pro (5 users) | $1,597/mo bundled

- Five seats is the minimum. Extra users are $120/mo each. Yearly agreement.
- Includes 10M usage credits plus 10M bonus credits (20M total).
- It has no stand-alone price. Never quote one to the client.
- Five people work in the office daily. Confirm the real user count, including drafters.

Why No Marketing Package

- **He is not buying marketing.** He said he would hire us for AI but not for ads.
- **His real marketing need is data.** He wants attribution, reporting and seminar follow-up.
- **No ad spend or ROI projection is in the proposal.** Keep the call on AI and automation.

If He Pushes Back

"I can do this for free, for the most part."

He is right that ChatGPT saves him time, such as research in 20 minutes instead of two weeks. Our value is finishing the blueprint, the integrations and the staff training. He also said he chose to outsource and insource to get it done better.

"We don't have expendable capital."

The bundle is $4,894/mo, about 3.7% of average monthly revenue ($1.6M a year), and bundling saves $500/mo. Tie it to his goal of not hiring heavily as he adds states. Confirm scope and price with sales leadership before changing the package.

"ChatGPT... has worked the best."

Do not fight it. Position the fCTO as the skills, automations and training around how his team works. Confirm platform fit on the call with the Fractional CTO.

"I'm not looking to find one to do it all because nobody does it well."

Agree with him. This proposal does not touch his marketing vendors. It adds AI and automation work across them.

Investment At A Glance

Fractional CTO Level 1	**$3,297/mo**
Monthly fCTO sessions, skills, and a custom automation.	~~$3,797~~ stand alone
AI Workforce Pro (5 users)	**$1,597/mo**
Managed AI workspace and weekly implementation session.	No stand-alone price

Total: $4,894/mo | Save $500/mo by bundling | 3.7% of stated revenue (under 35% cap)
