Prospect Snapshot

Owner	Revenue	Team	Stage	Close Rate	Location
Andrew Polchinski +2 partners	\$200K → \$1M+ pace	7 staff	Stage 4	15% (default)	Oklahoma City, OK

Dominant Buying Motive: FREEDOM (TIME BACK)

The partners want the firm to run without them personally handling every intake and settlement, so they can add headcount and finally get their time back.

"The partners are the firm's 'Chief Everything Officers' — personally handling all intakes and settlements."

"They see AI as the key to scaling without adding headcount, and want expert guidance to free up their time."

What they want:

- **Time back.** Step out of personally handling every intake call and settlement.
- **A firm that runs itself.** Automated procedures instead of manual oversight.
- **To hire without more workload.** The next attorney should add capacity, not more to manage.
- **A short, low-risk trial.** A prior marketing contract went badly — they want proof first.

What is stopping them:

- **Zero delegation.** All three partners personally handle every intake and settlement.
- **No paid marketing.** Growth is referral- and organic-driven with no paid fallback.
- **Zero visibility in 2 of 3 practice areas.** No organic presence for truck accidents or workers' comp.
- **No financial tracking.** Revenue jumped ~5x with no stated profit or margin visibility.

Why This Marketing Package

What it does for them:

- Fills the truck accident and workers' comp visibility gaps costing them cases to named competitors.
- Adds paid channels (Google Ads, LSA) as a first-time fallback to referrals and organic alone.

Full Service Marketing — Starter | \$4,847/mo bundled

- PI practice area requires a minimum Starter tier — Essentials is not eligible regardless of revenue.
- Starter's \$25,000/mo ad spend cap matches the aggressive recommendation exactly — no overage risk.
- Stand-alone price is \$5,697/mo — bundling saves \$850/mo.

Why This Coaching Package

What it does for them:

- Builds the intake delegation and staff procedures the partners already say they want.
- Gives them a structured path to onboard the next attorney without adding personal workload.

Elite Coach | \$2,600/mo bundled

- Revenue band and team size place this firm squarely in the Elite Coach tier.
- Includes weekly group coaching, masterminds, virtual quarterly workshops, one annual in-person workshop.
- Stand-alone price is \$3,497/mo — bundling saves \$897/mo.

Polchinski & Smith — Sales Companion (continued)

Why This Ad Spend

What it does for them:

- Turns the truck accident and workers' comp visibility gap into paid, immediate lead flow while organic SEO catches up.
- Gives them a paid-channel fallback for the first time, reducing total dependence on referrals alone.

Recommended Ad Spend Range:

- **Conservative:** \$10,000/mo — matches the PI high-competitiveness channel minimum floor.
- **Aggressive:** \$25,000/mo — the Starter tier's ad spend cap.

Estimated Return on Investment:

- **Conservative:** 2-3 cases x \$7K = \$14K-\$21K/mo vs. \$10K spend = 1.4x-2.1x return.
- **Aggressive:** 7-9 cases x \$7K = \$49K-\$63K/mo vs. \$25K spend = 2.0x-2.5x return.

All figures are estimates. Not guaranteed.

How the range was calculated:

- **Conservative:** PI high-competitiveness floor across a blended Google Search / LSA / Meta mix = \$10,000/mo.
- **Aggressive:** 20% rule and reverse-math both exceeded the Starter tier cap, so spend is capped at the tier maximum of \$25,000/mo rather than recommending a tier upgrade this cycle.
- Total spend at aggressive: \$32,447/mo (mgmt fees + ad spend) = ~38.9% of the firm's \$1M+ pace revenue — above the 35% cap. Conservative spend is ~20.9% of pace revenue, well under the cap.

If She Pushes Back

"Why should we sign anything long-term after our last marketing contract?"

Lead with the shorter trial structure — Starter tier is built as a lower-commitment entry point, not the long-term contract that burned them before.

"We're already growing without any of this — why spend \$7,447/mo plus ad spend?"

Revenue grew roughly 5x on referrals alone with zero paid marketing and zero visibility in 2 of 3 practice areas — that is proof of unmet demand, not proof the current model can keep scaling. McIntyre Law (292 reviews) and Dan Davis Law (175 reviews, ranks for workers' comp) are already capturing cases they can't currently see.

"We don't have time to manage a new marketing or coaching relationship."

That is the exact problem this audit surfaces — the partners are already at capacity personally handling every intake and settlement. Elite Coach is built specifically to install delegation so this doesn't add more for them to manage.

Escalations — Confirm Before Presenting

- Stated 2025 revenue of \$200K is under the \$300K threshold and under the \$250K Elite Coach threshold — both trigger scoping approval per policy. The 2026 pace of \$1M+ supports the recommendation; get sign-off before presenting.
- Aggressive ad spend + management fees run ~38.9% of pace revenue, above the 35% cap — consider leading with the conservative \$10,000 figure and revisiting after 90 days of results.

Investment At A Glance

Full Service Marketing — Starter	\$4,847/mo
Closes truck accident & workers' comp visibility gaps; adds Google Ads + LSA.	\$5,697 stand alone
Elite Coach	\$2,600/mo
Builds intake delegation and staff procedures.	\$3,497 stand alone
Recommended Ad Spend	\$10,000–\$25,000/mo
Goes to Google, LSA, and Meta — not to SMB Team.	

Total: \$7,447/mo + \$10,000–\$25,000 ad spend | Save \$1,747/mo by bundling | 20.9%–38.9% of pace revenue (aggressive exceeds 35% cap — confirm before presenting)
