Dominant Buying Motive: BECOME THE LITIGATOR / FIRM THAT RUNS ITSELF

David wants a firm built on systems so he can pursue board certification, try cases, and build a Texas-wide reputation — without working 70-hour weeks managing operations.

"60-70 hours/week including after-hours client calls"

"Taking cases from pre-litigation firms that lack the capacity for trial"

What he wants:

- **Board certification.** Building toward recognition as a certified PI trial specialist in Texas.
- **Cases he chooses.** A pipeline beyond referrals so he can pick work that builds his reputation.
- **Stop the 70-hour weeks.** Support staff so litigation gets his attention, not operations.
- **Identity as a litigator.** Known as the trial attorney in Texas, not a PI intake shop.

What is stopping him:

- **No digital presence.** Coming Soon website, no GBP, zero reviews — invisible to non-TTLA prospects.
- **Solo with no support.** Intake, records, and admin all fall to David personally.
- **Settlement-dependent cash flow.** Self-funding litigation costs, no reserve if settlements delay.
- **No revenue goals.** Michael noted targets are a prerequisite for David's goals — none exist yet.

Why This Marketing Package

Why This Coaching Package

Why This Ad Spend

What it does for him:

- Generates PI cases from paid channels independent of referrals — first paid case from ads validates the model.
- Spanish-language PI campaign is an untapped channel competitors are not fully capitalizing on; first-mover advantage.

Recommended Ad Spend Range:

- **Conservative:** \$7,500/mo — Google PPC \$3,000 + LSA \$2,000 + Meta \$2,500 across PI keywords.
- **Aggressive:** \$25,000/mo — Starter tier cap; full deployment across all channels including Spanish-language.

Estimated Return on Investment:

- **Conservative:** ~6 cases x \$8,000 = ~\$48,000/mo vs. \$7,500 spend = 6.4x estimated return.
- **Aggressive:** ~23 cases x \$8,000 = ~\$184,000/mo vs. \$25,000 spend = 7.4x estimated return.

All figures are estimates based on PI benchmarks. Not guaranteed. Case value default \$8K (PI Accident/Injury); close rate 15% default.

How the range was calculated:

- **Conservative:** PI minimums — PPC \$3,000 + LSA \$2,000 + Meta \$2,500 = \$7,500.
- **Aggressive:** 20% rule falls below conservative at est. revenue; using Starter tier cap \$25,000.
- **Scoping flag:** Revenue est. <\$180K — 35% cap exceeded. Confirm revenue before presenting.

If He Pushes Back

"I'm self-funding litigation costs — not sure I can afford this."

Conservative ROI: 6 cases x \$8K = \$48K/mo vs. \$7,500 ad spend = 6.4x return. The spend pays back with one additional case.

"I get TTLA referrals — I don't need paid marketing yet."

Carabin & Shaw adds 15-20 reviews per month. The gap grows every week without a GBP. TTLA is a ceiling — digital assets compound over time.

"I'm working 70 hours a week — no time to manage marketing."

SMB Team manages everything. David reviews monthly reports and attends coaching. The 70-hour weeks are the problem this solves, not a reason to wait.

"I'll wait until my website launches first."

Site has been Coming Soon since March 2026. Avvo still shows former employer (Sandoval & James). SMB Team's build is the fastest path to a live, optimized site.
