

OEB Law

Sales Companion | July 14, 2026 | Rep: Dan Bryant

Prospect Snapshot

Owner	Revenue	Team	Stage	Close Rate	Location
Tim Elrod (Managing Partner)	~\$570K est. (HubSpot; UNCONFIRMED — confirm with Tim)	3 assumed (8 attys. per ext. directory, unverified)	Stage 3	15% (default)	Knoxville, TN

Dominant Buying Motive: FREEDOM

Tim wants OEB Law generating consistent PI cases without his constant personal involvement in marketing decisions or video production.

"wreck into a check"

"taken for a ride"

What he wants:

- **Time back.** Court/family time without the marketing engine stalling.
- **Win without outspending.** Grow PI volume without dollar-for-dollar PPC vs. Morgan & Morgan.
- **Video without the burden.** Attorney video content without personal camera time.
- **Fix the foundation.** Correct past vendors' SEO mistakes so rankings match reputation.

What is stopping him:

- **Hard to reach.** Court schedule limits time to drive marketing decisions.
- **No financial visibility.** No revenue, case value, or close-rate data shared yet.
- **Unverified team size.** Directories cite 8 attorneys; not confirmed on the call.
- **Vendor scar tissue.** Prior agencies' SEO mistakes left the team feeling "taken for a ride."
- **No full discovery call yet.** Built from a reconnect touchpoint with DJ, not a deep-dive with Tim.

Why This Marketing Package

What it does for him:

- Puts OEB Law back in the local 3-pack and organic rankings it's currently invisible in.
- Lets OEB Law compete on local trust and reviews instead of outbidding Morgan & Morgan on PPC.

Full Service Marketing — Starter | \$4,847/mo bundled

- PI practice area requires minimum Starter tier — Essentials is ineligible.
- Revenue estimate (\$570K, HubSpot, unconfirmed) places OEB Law in the \$400K–\$1M tier.
- Starter's ad spend cap is \$25,000/mo — matches this firm's aggressive scenario.

Why This Coaching Package

What it does for him:

- Builds the leadership and accountability structure that doesn't yet exist beneath Tim.
- Gives DJ formal coaching support instead of carrying marketing evaluation alone.

Elite Coach Plus | \$3,200/mo bundled

- \$400K–\$1M revenue tier with "Any" team size recommends Elite Coach Plus.
- Team-size uncertainty (3 assumed vs. 8 unverified) does not change this tier.
- No profit-problem language stated directly, so Fractional CFO Advisor was not added.

Why This Ad Spend

What it does for him:

- Turns an invisible digital footprint into a measurable, trackable source of new PI cases.
- Lets OEB Law start winning searches instead of losing them to Garza, NST, and Brown and Roberto.

Recommended Ad Spend Range:

- **Conservative:** \$7,500/mo — PI "Medium competitiveness" hard floor.
- **Aggressive:** \$25,000/mo — equals the Starter tier ad spend cap.

Estimated Return on Investment:

- **Conservative:** 2-3 cases x \$6.5K avg = ~\$16.8K/mo vs. \$7.5K spend = ~2.2x return.
- **Aggressive:** 8-9 cases x \$6.5K avg = ~\$59K/mo vs. \$25K spend = ~2.4x return.

Estimates use a PI category default case value (actual not confirmed). Not guaranteed.

How the range was calculated:

- **Conservative:** PI Medium hard floor \$7,500. Blended CPL ~\$437/lead, +20% cushion.
- **Aggressive:** Matches Starter cap \$25,000. Blended CPL ~\$411/lead, no cushion.
- **CAP FLAG:** at \$570K est. revenue, conservative total (\$15,547/mo) = 32.7% (OK). Aggressive total (\$33,047/mo) = 69.6% — exceeds 35% cap. Confirm revenue before presenting \$25K.

If He Pushes Back

"We tried a marketing company before and got burned."

This audit is evidence-based: zero 3-pack presence for all 3 core PI searches, verified competitor data (Garza ~1,418 reviews, NST ~126 reviews).

"We don't want to compete dollar-for-dollar with Morgan & Morgan."

The mix leans on Local SEO and LSA — OEB Law wins on local trust and reviews (already ahead of Hodges, Doughty & Carson) rather than outbidding a national PPC budget.

"We're not sure what our numbers even are."

That's why coaching and the profit-tracking quick win are in this package. Confirm actual revenue with Tim — \$570K is a HubSpot estimate, not confirmed.

"Is \$25,000/mo in ad spend affordable?"

Only if confirmed revenue supports it. At \$570K est., \$25K plus the \$8,047 fee exceeds the 35% cap. Lead with the \$7,500 conservative scenario (32.7% of est. revenue).
