

Charles Chase — Workers' Compensation Law

Sales Companion | June 12, 2026 | Rep: Randy Gold

Prospect Snapshot

Owner	Revenue	Team	Stage	Close Rate	Location
Charles Chase	~\$0 current; \$250K/yr goal	Solo (1)	Stage 3	15% (default)	Fort Lauderdale, FL

Dominant Buying Motive: FREEDOM / LIFESTYLE

Build a firm generating \$1M+ annual profit that runs without the owner's presence — funding a life in Portugal.

"Relocating to Portugal — need firm to generate income without requiring my physical presence."

"12-month goal: \$250,000 in revenue. Long-term: \$1M+ annual profit."

What he wants:

- **Replace \$400K+ combined income.** Firm revenue must fund the Portugal life without any other income source.
- **A firm that runs without him.** Systems and staff handling cases and intake whether he is in Florida or overseas.
- **\$1M+ annual profit.** Long-term goal; not a lifestyle practice but a growth trajectory.

What is stopping him:

- **No digital infrastructure.** No owned website, no GBP, no directories — invisible in every channel.
- **Wasted ad spend.** Vendor targeted health insurance keywords — 200 visitors/day, zero case leads.
- **No intake system.** Zero inbound digital leads ever; no process ready when ads launch.
- **12-month runway.** Every month without a working system is runway burned without progress.

Why This Marketing Package

What it does for him:

- Builds a firm-owned website with workers' comp landing pages — an owned digital asset no vendor can take away.
- Generates the first inbound case leads from Google Ads, breaking total dependence on referrals.
- Resolves GBP and builds local SEO — unlocking local search, LSA, and review collection simultaneously.

Full Service Marketing — Starter | \$4,847/mo bundled

- No owned website, no GBP — Full Service builds complete digital infrastructure from scratch.
- Workers' comp min ad spend (~\$3,000–\$4,000) exceeds Essentials cap (\$1,500); Starter required per boundary rule.
- Fort Lauderdale Tier 2 market; competitors have 27–32 years of digital equity — Starter is the minimum competitive tier.

Why This Coaching Package

What it does for him:

- Provides weekly accountability toward the \$250K goal — not just marketing, but strategic review of whether the firm is on track.
- Connects with workers' comp attorneys in the SMB network who have already built past this stage.
- Builds intake, hiring, and financial decision frameworks a solo startup needs — before expensive mistakes happen.

Elite Coach | \$1,600/mo bundled

- \$250K revenue goal places firm in the \$250K–\$400K band — Elite Coach is the correct eligibility tier.
- Solo, no prior firm ownership — weekly coaching catches blind spots early.
- Includes weekly group coaching, practice area masterminds, quarterly virtual workshops, one annual in-person event.

Why This Ad Spend

What it does for him:

- Converts ad budget from health insurance keyword waste to injured workers with attorney-hire intent — fundamentally different audience.
- Conservative \$3,000/mo generates est. 3 cases/\$7,500 revenue — 2.5x return from month one.

Recommended Ad Spend Range:

- **Conservative:** \$3,000/mo — Google Ads \$2,000 + LSA \$1,000; minimum viable for workers' comp in Fort Lauderdale.
- **Aggressive:** \$10,000/mo — Google + LSA + Meta retargeting + Spanish campaign; Starter tier cap.

Estimated ROI:

- **Conservative:** 22 leads x 15% close = 3 cases x \$2,500 = \$7,500 vs. \$3,000 spend = 2.5x. (CPL \$135 +20% cushion.)
- **Aggressive:** 106 leads x 15% close = 15 cases x \$2,500 = \$37,500 vs. \$10,000 = 3.75x. (Blended CPL \$94.)

Estimates only. Not guaranteed. Case value uses FL workers' comp fee default (\$2,500 avg) — not stated in transcript.

Calculation basis:

- **Conservative:** Accident/Injury General minimums: Google PPC \$2,000 + LSA \$1,000 = \$3,000.
- **Aggressive:** \$500K target x 20%/12 = \$8,333. Tier 2 (1.3x) = \$10,833. Spanish (1.33x) = \$14,408. Cap at Starter \$10,000.
- 35% cap concern: \$16,447 total vs. \$20,833/mo goal = 79%. Discuss actual revenue trajectory with prospect.

If He Pushes Back

"I already spent money on ads and got zero results."

The vendor targeted health insurance keywords — people asking about coverage, not injured workers. That is a targeting failure, not a channel failure. SMB campaigns target 'workers comp attorney Fort Lauderdale' and high-intent terms. Completely different audience.

"The investment feels high for a startup."

Conservative: 3 cases/mo x \$2,500 = \$7,500 revenue vs. \$3,000 ad spend = 2.5x. Plus referrals continue. The infrastructure is what makes the \$250K goal achievable — waiting means more runway spent on referrals only.

"Can we start with just marketing and skip coaching?"

Bundle saves \$2,747/mo vs. stand-alone. Coaching provides intake scripting, goal accountability, and weekly review — the difference between leads that sign and leads that go unanswered.

"I am worried about the 12-month runway."

The runway is exactly why starting now matters. At 3 cases/mo conservative, the firm generates \$7,500/mo in new ad revenue by month 2. Waiting 3 months means 3 more months of referral-only dependence.

Investment At A Glance

Full Service Marketing — Starter	\$4,847/mo
New website, Google Ads (workers' comp keywords), GBP setup, local SEO, monthly reporting.	\$5,697 stand alone
Elite Coach	\$1,600/mo
Weekly group coaching, practice area masterminds, quarterly virtual workshops, annual in-person event.	\$3,497 stand alone
Recommended Ad Spend	\$3,000–\$10,000/mo
Goes to Google, LSA, and Meta — not to SMB Team.	

Total: \$6,447/mo + \$3,000–\$10,000 ad spend | Save \$2,747/mo by bundling | 35% cap concern noted — discuss revenue trajectory with prospect
