Prospect Snapshot

Owner	Revenue	Team	Stage	Close Rate	Location
Kerry O'Brien	$1.8-2M proj. (gross)	6 (1 atty)	3	15% (default)	Los Alamitos, CA

Dominant Buying Motive: SECURITY

Kerry wants a steady, predictable flow of cases so his firm never has an empty pipeline again.

> *"now that my caseload has dwindled, you know, I don't want to be sitting here like in a year from now going, oh, geez, where's all the clients?"*

> *"more predictable leads, more phone calls coming in."*

> *"if I'm getting at least 10 cases a month, that, you know, consistently from between now and the next year, that would be great."*

What he wants:

- **A full pipeline.** At least 10 new cases a month, consistently, through next year.
- **A bigger caseload.** He is at about 60 and calls 200 to 300 awesome for his firm.
- **To be found first nearby.** He wants number one in Anaheim, not number 50 in LA.
- **A plan by year-end.** He wants 2027 to start off and running.

What is stopping him:

- **Nervous about paid ads.** He has never run them and wants to know it will work out.
- **Referrals slowed.** He says people have forgotten about the firm and calls are down.
- **Stale web presence.** Site shows (c) 2023, the old brand, and Lighthouse mobile 65 (LCP 7.5 s).
- **Wrong Google listing.** It sits on a tax office's location; one fix reverted.
- **No marketing owner.** Staff handle intake and cases; no one runs lead generation.

Why This Marketing Package

What it does for him:

- Refills the caseload as existing cases settle, so 2027 does not start with an empty pipeline.
- One team fixes the website, the Google listing, and the ads, so he does not manage vendors.
- Puts him in front of accident searches in nearby cities where he can win.

Full Service Marketing - Growth | $8,997/mo (stand-alone price)

- Revenue of about $1.8-2M (rep-proposed, soft-confirmed, gross only) fits the $1M-$2M Growth tier.
- Seller override (Slack, 2026-10-26) dropped Elite Coach Plus and AI Workforce Pro - Starter; marketing only.
- Only one bundle-eligible product, so the stand-alone price applies and there are no bundle savings.
- Several case types (MVA, premises, dog bites) plus a rebrand migration fit Growth content (15,000 words).

Why Marketing Only (Coaching and AI Held for Later)

What it does for him:

- One package answers the one problem he named: not enough calls coming in.
- Ops, finance, and AI can be added once cases are flowing (roadmap Phases 2 and 3).

No coaching, ops, or AI package | $0/mo

- Kerry said "You just need more business"; the rep saw no sign he needs ops help.
- He is curious about AI, but the rep said it is not as big a driver for PI; hold for Phase 3.
- If AI Workforce Pro, FCOO, or FCFO is added later, re-run pricing (bundle rule) and confirm approvals.

Why This Ad Spend

What it does for him:

- Lets him start at a level he is comfortable with and step up as results show.
- Aims spend at high-intent accident searches in nearby cities, not costly LA terms.

Recommended Ad Spend Range:

- **Conservative:** $10,000/mo - Google Search-led minimum for MVA in a high-competition market.
- **Aggressive:** $40,000/mo - fuller mix of Search, LSA, and Meta; under the $50,000 Growth cap.

Estimated Return on Investment:

- **Conservative:** about 1.8 cases x $7.5K = $13.3K/mo vs. $10K spend = 1.3x return (est.).
- **Aggressive:** about 18.8 cases x $7.5K = $141.3K/mo vs. $40K spend = 3.5x return (est.).

All figures are estimates. Not guaranteed. $7.5K case value and 15% close rate are defaults; Kerry stated neither.

How the range was calculated:

- **Conservative:** MVA Google PPC minimum $10,000 (also the high-competition PI floor). CPL $705 + 20% = $846.
- **Aggressive:** $40,000 per decision file (4x the floor). Mix 60% Search, 20% LSA, 20% Meta; blended CPL about $318.
- Cross-check: 20% rule on $3.8M (2x revenue, no stated goal) = $63.3K less $9.0K fee = $54.3K, above the cap. Total at aggressive: $48,997/mo = 30.9% of revenue. Under the 35% cap.

If He Pushes Back

"I haven't done paid ads. I'm really nervous by it."

Start at $10,000, not $40,000. Be candid: conservative is only about 1.3x and about 2 cases a month. Proving cost per signed case comes first, then ramp.

"I was quoted about $30,000 a month by some other company."

Ours is $8,997 in fees plus ad spend that goes to Google and Meta, and he controls the ramp. His $30K was the rep's 10-client math; confirm what that quote included.

"I'll never get as big as those guys."

Agree, and skip LA head-on. He accepted "number one in Anaheim." Rivals like Omega (reported ~526 reviews, unverified; confirm live) show why reviews matter.
