Prospect Snapshot

Owner	Revenue	Team	Stage	Close Rate	Location
Larry Trias	~\$1M/yr (goal \$2.5M)	7-8	Stage 4	15% (default)	Fort Myers, FL

Dominant Buying Motive: CONTROL

Larry wants a firm that future-proofs itself with a lead system he owns — not one that depends on referral partners' goodwill.

"future-proof the business / control growth"

"a concrete proposal with clear ROI projections (e.g., cost per case)"

What he wants:

- **Independence from referral partners.** Case flow not tied to any single relationship or vendor.
- **Proof before spend.** A concrete, cost-per-case ROI case before committing further dollars.
- **2.5x revenue growth.** An explicit \$2.5M annual goal, up from ~\$1M today.

What is stopping him:

- **Zero digital presence.** Invisible in organic or paid search across all five practice areas in Fort Myers.
- **A bad first Google Ads experience.** A prior \$2K-\$3K/mo campaign produced weak leads and made Larry risk-averse.
- **Directory chaos.** Avvo, FindLaw, and BBB list the wrong office locations, diluting local authority.
- **No cost-per-case tracking.** \$17K-\$19K/mo is already spent with no visibility into its return.

Why This Marketing Package

What it does for him:

- Puts real search visibility behind the existing bilingual differentiator and 19-city landing page infrastructure.
- Replaces the prior trial-and-error Google Ads attempt with a structured, trackable campaign across all 5 areas.

Full Service Marketing — Growth | \$7,497/mo bundled

- Revenue sits at the bottom of the Growth band (~\$1M/yr); PI practice requires minimum Starter tier regardless.
- 4 offices and 5 practice areas disqualify Essentials; 20% rule against the \$2.5M goal exceeds Starter's \$20K cap.
- Growth's \$50K cap is the ceiling — Dominate isn't eligible until revenue clears \$2M.

Why This Coaching Package

What it does for him:

- Builds the delegation and accountability structure Larry needs as new lead volume increases.
- Sets up the operational foundation for FCOO Advisor in Phase 2.

Elite Coach Plus | \$3,200/mo bundled

- Revenue (\$1M+) and headcount (7-8) open Master's Circle eligibility, but no dedicated ops/marketing/intake hire exists — excluding it.
- Elite Coach Plus is the correct fit for a \$1M+ firm without a dedicated ops/marketing hire yet.

Why This Ad Spend

What it does for him:

- Gives Larry the cost-per-case ROI proof he explicitly asked for before committing further marketing spend.
- Converts the firm's existing \$17K–\$19K/mo traditional spend habit into a trackable, scalable digital channel.

Recommended Ad Spend Range:

- **Conservative:** \$10,000/mo — PI + High competitiveness hard floor (500+ review competitors, saturated ad space).
- **Aggressive:** \$50,000/mo — Growth tier's ad spend cap, sized to the firm's \$2.5M revenue goal.

Estimated Return on Investment:

- **Conservative:** 3 cases x \$10K = \$30K/mo vs. \$10K spend = 3.0x return.
- **Aggressive:** 17 cases x \$10K = \$170K/mo vs. \$50K spend = 3.4x return.

All figures are estimates. Not guaranteed.

How the range was calculated:

- **Conservative:** PI + High competitiveness hard floor = \$10,000/mo.
- **Aggressive:** \$2.5M goal x 20% / 12 = \$41,667. Tier 4 geo (1.0x) x Spanish PI modifier (1.5x) = \$62,500. Minus \$7,497 fee = \$55,003 — capped at Growth's \$50,000 tier max.
- Total spend at aggressive: \$60,697/mo = 73% of CURRENT revenue (exceeds the 35% cap against today's ~\$1M/yr) but 29.1% of the \$2.5M GOAL revenue (under the cap). Present aggressive as a stretch target tied to growth, not an immediate obligation.

If He Pushes Back

"We tried Google Ads before and it didn't work."

The prior \$2K–\$3K/mo campaign wasn't managed with Quality Score optimization, negative keywords, or dedicated landing pages — this is the properly structured version of the same channel, with LSA (pay-per-lead) as an even lower-risk entry point.

"I need to see the ROI numbers before I commit."

The conservative scenario alone projects a 3.0x return (\$30K/mo revenue on \$10K/mo spend) — this audit is the concrete cost-per-case proposal Larry asked for on the call.

"\$10,697/mo plus ad spend feels like a lot."

The firm already spends \$17K–\$19K/mo on referral and traditional channels; the conservative total (\$20,697/mo including ad spend) is under 25% of current monthly revenue, well within the 35% cap.

"Will this work across all five practice areas and four offices?"

Growth tier's GBP scope covers up to 4 locations, and the firm's existing 19-city landing page infrastructure gives the campaign a head start most 2-year-old firms don't have.
