

Alexander & Alexander Attorneys at Law

Sales Companion | July 9, 2026 | Rep: Randy Gold

Prospect Snapshot

Owner	Revenue	Team	Stage	Close Rate	Location
Wil Alexander	\$1.2M/yr	5 total	Stage 3	15% (default)	Barnwell, SC

Dominant Buying Motive: FREEDOM

Wil wants a firm that runs itself so he can take a real two-week vacation without everything falling apart.

"~\$520k/yr opportunity cost estimate on Wil's own low-value hours, at an assumed \$500/hr value"

"3 cases/mo x \$21k average case value = \$756k/yr — Wil's own revenue-opportunity math from the call"

"Revenue goal of \$3-4M/year, stated explicitly on the call, against a flat \$1.2M/year today"

What he wants:

- **Real time off.** A two-week vacation where the firm keeps running without him.
- **Out of pre-suit negotiations.** Hand this work to a future associate instead of doing it himself.
- **Predictable growth.** Move from a flat \$1.2M/yr toward the \$3-4M/yr goal he has already set.
- **Proof his ad spend works.** Tracking that shows results, not guesswork like before.

What is stopping him:

- **No tracked lead system.** Billboards, Facebook, and reviews built the reputation, but there's no paid, trackable engine.
- **Burned by past PPC/LSA.** Both were tried and dropped for poor perceived ROI and no tracking.
- **Still the bottleneck.** Wil personally handles pre-suit negotiations rather than delegating them.
- **No profit plan.** No ongoing visibility into cost per case or acquisition cost by channel.
- **Competitors closing in.** Regional firms are building SEO content aimed at his own home market.

Why This Marketing Package

What it does for him:

- Replaces guesswork with a trackable system across Google Ads, LSA, SEO, and Meta.
- Closes the geo-targeted SEO gap competitors are already exploiting in Aiken, Barnwell, and Orangeburg.
- Gives Wil the case volume needed to hit \$3-4M without personally chasing new business.

Full Service Marketing — Growth | \$7,397/mo bundled

- Revenue is \$1.2M — solidly inside the \$1M-\$3M Growth tier band.
- PI firm — Essentials and LSA-only tiers are excluded by practice area rule; Growth is the correct entry point.
- Firm has zero active paid channels today, so full-service (not ads-only) matches the starting point.
- \$7,500-\$30,000/mo ad spend range fits inside the Growth tier's ad spend cap.

Why This Coaching Package

What it does for him:

- Gives Wil a structured path to delegate pre-suit negotiations off his own plate.
- Builds the self-managing team structure that makes a two-week vacation survivable.
- Puts a real profit plan in place instead of the informal math worked out on the call.

Elite Coach Plus | \$3,200/mo bundled

- Revenue \$1.2M and team of 5 (under 5 dedicated staff threshold) points to Elite Coach Plus, not Master's Circle.
- Team size note: package_decision.json defaulted to 3 due to a pipeline extraction miss — actual team is 5 (2 attorneys + 3 support). Elite Coach Plus is still correct at this team size; does not require re-scoping.
- No dedicated ops/marketing/intake staff member identified — another reason Master's Circle is excluded.
- Includes weekly group coaching, practice area masterminds, quarterly workshops, and one annual in-person workshop.

Alexander & Alexander — Sales Companion (continued)

Why This Ad Spend

What it does for him:

- Turns an untested channel mix into a measured system — the exact thing missing from his past PPC/LSA attempts.
- At the aggressive end, funds the case volume needed to reach the \$3-4M/yr goal Wil stated on the call.

Recommended Ad Spend Range:

- **Conservative:** \$7,500/mo — matches the package_decision.json floor for this market and practice area.
- **Aggressive:** \$30,000/mo — matches the package_decision.json ceiling, sized to the \$3-4M growth goal.

Estimated Return on Investment:

- **Conservative:** ~2 cases x \$21K = ~\$43K/mo vs. \$7.5K spend = ~5.8x return.
- **Aggressive:** ~10 cases x \$21K = ~\$210K/mo vs. \$30K spend = ~7.0x return.

All figures are estimates based on Accident & Injury CPL benchmarks, a 15% default close rate (not stated on call), and the \$21,000 average case value Wil stated. Not guaranteed.

How the range was calculated:

- **Conservative:** Accident & Injury blended CPL (\$449) + 20% cushion = ~\$539/lead; \$7,500 / \$539 = ~14 leads x 15% close = ~2 cases.
- **Aggressive:** Same blended CPL, no cushion = \$449/lead; \$30,000 / \$449 = ~67 leads x 15% close = ~10 cases.
- Total spend at aggressive (\$30K) + bundled fees (\$10,597) = \$40,597/mo = ~3.4% of \$1.2M annual revenue — well under the 35% cap; against the \$3-4M goal it is proportionally lower still.

If He Pushes Back

"We tried PPC and LSA before and they didn't work."

That's exactly why tracking is built into this plan from day one — the transcript confirms the real issue was no consistent tracking, not that paid channels can't work in this market. With 121 five-star reviews already in place, the firm starts from a stronger trust position than most first-time advertisers.

"My reputation already dominates Barnwell — do I really need this?"

Young & Thurmond is one county over with 119 reviews at the same 5.0 rating, and Theos Law Firm and Jeffcoat are already building dedicated landing pages targeting Barnwell, Aiken, and Orangeburg by name. The reputation is real — the digital footprint to defend it is not there yet.

"\$10,597/mo plus ad spend feels like a lot."

At the conservative end, the ad spend alone is projected to return ~5.8x — before accounting for the ~\$520K/yr Wil already estimated he loses to hours spent on work he could delegate. This is about buying back both revenue and time.

Investment At A Glance

Full Service Marketing — Growth	\$7,397/mo
Google Ads, LSA, local SEO, and Meta — fully managed and tracked.	\$8,997 stand alone
Elite Coach Plus	\$3,200/mo
Group coaching, masterminds, quarterly workshops, annual in-person event.	\$3,497 stand alone
Recommended Ad Spend	\$7,500–\$30,000/mo
Goes to Google, LSA, and Meta — not to SMB Team.	

Total: \$10,597/mo + \$7,500–\$30,000 ad spend | Save \$1,897/mo by bundling | ~1.5%–3.4% of current \$1.2M revenue (under 35% cap)
