

O'Connor Family Law

Sales Companion | May 11, 2026 | Rep: Dan Bryant

Prospect Snapshot

Owner	Revenue	Team	Stage	Close Rate	Location
Heather O'Connor	\$4M+ (2025)	25 / 13 atty	Stage 5	9% lead-to-signed	Westborough & Hanover, MA

Dominant Buying Motive: FREEDOM

Heather wants a firm that runs without her — income not tied to her hours, Caitlyn leading forward, and the freedom she built this firm to create.

"We provide signed, won, lost, and qualification data every month. We feel like they're not acting on it — no exclusions, no keyword pruning, nothing."

"2025 revenue just over \$4 million. 2026 target is \$5 to \$7 million."

What she wants:

- **Clean attribution.** She wants to know which dollars produce which signed cases — not raw call counts.
- **Caitlyn's time back.** Her Director of Operations should lead growth, not audit reports the agency isn't acting on.
- **A clear path to \$7M.** She has the infrastructure — she needs the marketing system to match it.

What is stopping her:

- **No attribution.** \$17-20k/month in ad spend with no signed-case reporting — she cannot tell what is working.
- **Wrong agency.** Empirical 360 has had 8-10 months of signed-case feedback and has not adjusted a single keyword or exclusion.
- **GBP and keyword errors.** Wrong primary category, wrong homepage framing, LSA-heavy budget that cannot filter junk by design.
- **No fractional CFO.** Growing to \$7M without margin planning risks adding revenue without adding owner take-home.

Why This Marketing Package

What it does for her:

- Replaces raw call count reporting with signed-case attribution — Caitlyn stops auditing reports and starts leading.
- Rebalances PPC vs. LSA with income demographic layering and negative keywords — junk volume drops at the source.

Full Service Marketing Growth | \$7,397/mo bundled

- Two distinct markets (MetroWest + South Shore) require separate campaign structures and GBP strategies.
- \$10k/month LSA with ~50% spam rate requires full restructure and systematic dispute process to recover credit.

Why This Coaching Package

What it does for her:

- Gives Caitlyn an external FCOO partner to build the systems needed to reach \$7M without expanding her hours.
- Connects Heather to a Master's Circle cohort of owners at her revenue stage who have solved the \$4M-to-\$7M problem.

Master's Circle | \$4,600/mo bundled

- \$1M+ revenue with 5+ dedicated staff and structured operations team qualifies for Master's Circle.
- Connects Heather to a peer cohort of owners who have already solved the \$4M-to-\$7M transition.
- Accountability structure replaces agency oversight burden — Caitlyn leads forward instead of backward.

Why This Ad Spend

What it does for her:

- Every dollar of ad spend becomes attributable to a signed case — the guesswork about which channel is working ends permanently.
- The intake engine already built for 40-50 new clients/month finally gets the clean, qualified pipeline it needs to operate at capacity.

Recommended Ad Spend Range:

- **Conservative:** \$15,000/mo — current spend level, rebalanced: LSA \$7,500 + PPC \$5,000 + Meta \$2,500.
- **Aggressive:** \$25,000/mo — full budget to accelerate to \$5-7M with income demographic targeting in both markets.

Estimated Return on Investment:

- **Conservative:** 10-12 cases x \$15,000 avg = \$150,000-\$180,000/mo vs. \$15,000 spend = 10x-12x estimated return.
- **Aggressive:** 16-20 cases x \$15,000 avg = \$240,000-\$300,000/mo vs. \$25,000 spend = 9.6x-12x estimated return.

All figures are estimates based on industry averages. Not guaranteed.

How the range was calculated:

- **Conservative:** Family law channel minimums: LSA \$7,500 + PPC \$5,000 + Meta \$2,500 = \$15,000/mo.
- **Aggressive:** \$5M growth target x 20% / 12 = \$83,333 theoretical max; capped at Growth tier limit of \$25,000/mo.
- Total spend at aggressive: \$25,000/mo = ~6.25% of current \$4M revenue. Well under the 35% cap.

If She Pushes Back

"We had SMB Team before and left over slow web updates."

We take that history seriously — and the production workflow has changed. Web updates now carry a 48-hour SLA with dedicated production support. More importantly, what you need now is not faster updates; it is a marketing partner who optimizes to signed cases, which is exactly what Platinum delivers.

"We give them all this data and they just don't act on it."

That is the central problem. Empirical 360 has had 8-10 months of signed/won/lost feedback and has not adjusted a keyword or exclusion. SMB Team's Platinum reporting is built specifically so that every optimization decision ties back to signed-case outcomes — not click volume.

"Half our LSA leads are spam. We're wasting money."

LSA cannot exclude 'cheap' or 'free' divorce intent by design — that is a platform limitation. The fix is to rebalance toward PPC where we layer household income top 30%, exclude junk terms, and dispute every unqualified LSA lead for credit. The current agency has not been doing any of this.

Investment At A Glance

Full Service Marketing Growth

\$7,397/mo

Website, SEO, PPC + LSA + Meta + GBP + signed-case attribution.

~~\$8,997~~ stand alone

Master's Circle

\$4,600/mo

Elite Coach + High Level Mastermind + Team Training.

~~\$4,997~~ stand alone

Recommended Ad Spend

\$15,000–\$25,000/mo

Goes to Google, LSA, and Meta — not to SMB Team.

Total: \$11,997/mo + \$15,000–\$25,000 ad spend | Save \$1,997/mo by bundling | Ad spend = 6–10% of current revenue (under 35% cap)
