

Albizu Law

Sales Companion | July 16, 2026 | Rep: Jonathan Farace

Prospect Snapshot

Owner	Revenue	Team	Stage	Close Rate	Location
Iris Albizu	\$1.8M ('25) / \$2.0M proj.	~3, lean	Stage 3	15% (default)	Austin, TX

Dominant Buying Motive: FREEDOM

Iris wants to scale to \$5M-\$6M while cutting her hours from ~70/week down to a sustainable 40, so she has real time for her daughter before college.

"The current pace is unsustainable and threatens burnout."

"Iris wants to regain time for family, especially a teenage daughter before she leaves for college."

What she wants:

- **A sustainable 40-hour week.** Split 50/50 between case work and strategy, down from ~70 hours at 85% casework.
- **Time with her daughter before college.** Her teenage daughter leaves for college soon — this is a closing window.
- **Growth without more of her own hours.** Scale to \$5M-\$6M with only 4-5 planned hires, not by working harder.
- **A team that runs cases without her.** Not just more staff — staff who can operate independently.

What is stopping her:

- **Owner-dependency.** Iris personally handles ~85% of casework — no delegation layer exists.
- **Zero local search visibility.** Firm did not appear in any of the 6 local-pack searches performed.
- **No intake process.** No CRM or follow-up sequence — referral leads can go uncontacted.
- **Bilingual hiring bottleneck.** The 4-5 hire plan (2-3 attorneys, 2 paralegals) has stalled on candidate availability.
- **No profit visibility.** Revenue has doubled in 2 years with no margin or cost-per-case tracking discussed.

Why This Marketing Package

What it does for her:

- Puts the firm in front of prospects currently finding Lincoln-Goldfinch, Kirker Davis, and Alonso & Alonso instead of her.
- Turns the unused family law ad landing page into an active lead source with no new page build required.
- Builds a visibility engine that does not depend on Iris's personal referral network.

Full Service Marketing — Growth | \$7,397/mo bundled

- Revenue of \$1.98M places the firm squarely in the \$1M-\$3M Growth tier band.
- Zero local-pack visibility across all 6 searches performed, spanning both practice areas.
- Existing family law landing page and 9 geo-targeted city pages are underused assets this package activates.
- LawInfo NAP conflict is actively suppressing local rankings and is corrected as part of this package.

Why This Coaching Package

What it does for her:

- Gives Iris a structured way to delegate instead of absorbing 85% of casework herself.
- Turns the stalled 4-5 hire plan into an executable recruiting process.
- Builds the leadership layer that lets the firm run without her in every case.

Elite Coach Plus | \$3,200/mo bundled

- Revenue \$1M+ with team under 5 qualifies for Elite Coach Plus (Master's Circle requires 5+ dedicated staff).
- No manager or delegated leadership layer currently exists at the firm.
- Owner-dependency is the single biggest blocker to the stated DBM of reclaiming personal time.
- Growth to \$5M-\$6M is explicitly tied to hiring in the transcript, not just lead volume.

Why This Ad Spend

What it does for her:

- Converts the firm's strong 4.7-star reputation into paid visibility instead of leaving it dormant.
- Starts modest, in line with the transcript's caution against pushing volume the firm can't yet absorb.

Recommended Ad Spend Range:

- **Conservative:** \$3,500/mo — Family Law Google Search PPC minimum, reactivating the existing landing page.
- **Aggressive:** \$14,000/mo — blended Google Search, LSA, and Meta across both practice areas.

Estimated Return on Investment:

- **Conservative:** ~4 cases x \$4K = ~\$17.5K/mo vs. \$3.5K spend = ~5.0x return.
- **Aggressive:** ~25 cases x \$4.25K = ~\$106K/mo vs. \$14K spend = ~7.6x return.

All figures are estimates. Not guaranteed.

How the range was calculated:

- **Conservative:** Family Law channel minimum: Google PPC \$3,500 (single channel, existing landing page).
- **Aggressive:** Blended Google Search + LSA + Meta across both practice areas, held well under the Growth tier's \$50,000 ad spend cap given the transcript's caution against pushing volume beyond current capacity.
- Total spend at aggressive: \$14,000 ad spend + \$10,597 bundled = \$24,597/mo = ~14.9% of current monthly revenue. Under the 35% cap.

If She Pushes Back

"I don't have the bandwidth to handle more leads right now."

This is why coaching leads alongside marketing — Elite Coach Plus builds the team that can absorb new volume, and ad spend starts at \$3,500/mo, not the \$50K tier cap, so lead flow grows with capacity, not ahead of it.

"We've grown fine on referrals alone — why fix what isn't broken?"

True, but every one of the 6 competitor searches performed put Lincoln-Goldfinch Law (1,523 reviews), Kirker Davis LLP (305 reviews), or Alonso & Alonso ahead of Albizu Law's ~40. Referrals got the firm to \$1.8M; they will not get it to \$5M-\$6M against that visibility gap.

"Can we afford this on top of everything else?"

At \$10,597/mo bundled plus \$3,500-\$14,000 ad spend, total spend runs ~8.5%-14.9% of current monthly revenue — well under the 35% cap SMB Team uses to keep spend sustainable.

"What about the immigration policy changes hurting our projections?"

That's a profit-visibility gap, not a marketing gap — Elite Coach Plus is scoped to build the cost-per-case tracking that shows whether the firm is more profitable, not just busier, as policy conditions shift.
