Prospect Snapshot

Owner	Revenue	Team	Stage	Close Rate	Location
Tammi Caress	\$2.2M-\$2.7M	~3 + COO	Stage 4	15% (default)	Portland, OR

Dominant Buying Motive: TIME / FREEDOM

Tammi wants a firm that runs on automation and qualified leadership, not on her personal follow-through, so she can focus on strategy instead of every system.

"Tammi is the operational fallback for all systems and processes, preventing her from focusing on strategic growth."

"The Fractional CTO role should free up owner time, increase team capacity, and enable growth without adding staff."

What she wants:

- **Time back.** Stop being the fallback for every system and process in the firm.
- **Real delegation.** Operational leadership she can actually trust, not just a title.
- **Predictable profit.** Move probate/trust admin from hourly to flat fees.

What is stopping her:

- **Underqualified COO.** Current fractional COO lacks law-firm-specific experience.
- **Manual workflows.** 39-step probate process, bill review, mail, and expenses all done by hand.
- **No attorney KPIs yet.** Accountability structure has not been built.
- **Call was CTO-focused, not marketing.** No lead-gen/SEO/ads gap was raised — do not lead with a marketing pitch.

Why This AI & Automation Package

What it does for her:

- Puts a dedicated Fractional CTO on the named automation targets — not a generic tool.
- Turns the probate reduction, bill review, mail, and expense compilation into monthly deliverables.

Legal AI Workforce — Fractional CTO Level 2 | \$4,997/mo bundled

- Revenue \$2.2M-\$2.7M sits squarely in this tier's \$1.5M-\$3M target band.
- 1-3 custom automations/month, bi-monthly CTO calls, Clio/Lawmatics/Outlook integration.
- Plus one-time Foundation Sprint: \$14,997 (standalone \$19,997) for upfront discovery/build.
- ESCALATION: confirm LAW delivery capacity with sales rep before proposing.

Why This Operational Package

What it does for her:

- Replaces an underqualified COO relationship with real law-firm operational experience.
- Finally gets attorney KPIs and accountability structure built — work that has stalled with Tammi.

FCOO Advisor | \$3,297/mo bundled

- Revenue \$1M+, team under 5, explicitly operational-focus fit per the transcript.
- Includes weekly group coaching, practice area masterminds, quarterly workshop access, one annual in-person workshop.
- No separate Elite Coach Plus needed — these deliverables are bundled into this price.
- Directly replaces the current external COO's gap: law-firm-specific experience she does not have today.

Why No Marketing Package or Ad Spend

What this protects for her:

- Keeps the proposal matched to what she actually asked for on the call — automation and operations.
- Avoids pitching a \$10K+/mo marketing bundle she never raised a need for, which would hurt trust, not build it.

Why marketing was excluded:

- The 57-minute call never discussed marketing, SEO, ads, or lead generation.
- package_decision.json flagged Full Service Marketing Dominate (\$10,497/mo) on revenue alone — it cannot read the transcript.
- Growth Health/Lead Gen findings (urgency 5/10) are real competitive context, not a package trigger here.

If she raises marketing later, it's a legitimate future-phase add — see roadmap Phase 3.

If She Pushes Back

"Why not just fix our current COO instead of paying for a new one?"

Her current fractional COO lacks law-firm-specific experience — that is the root problem, not a fixable skills gap. FCOO Advisor replaces that gap with operators who know law firm KPIs and workflows specifically.

"Is \$8,294/mo justified without a marketing pitch?"

This price reflects exactly what she asked for: a Fractional CTO building the automations she named, plus qualified operational leadership. Every dollar maps to a stated call need, not an unrequested add-on.

"What does the \$14,997 Foundation Sprint add on top of the monthly fee?"

It is the one-time discovery/build phase for the four named automation targets before ongoing CTO management begins. Standalone Sprint pricing is \$19,997, so this is a bundled \$5,000 savings.
