Dominant Buying Motive: EXIT AND SCALE

Peter wants a proven model that brings steady cases and quick wins, so he can be done in two to three years while building a national brand.

> *"I've been doing this too long … and I want to be done in two to three years."*

> *"Really what we need is the experts to come in and say, hey, we know this works. Here's a model that works. Follow this model."*

> *"I want us to get wins, some quick wins, because the quick wins builds confidence."*

What he wants:

- **A proven model.** Experts say "follow this," and his side supplies the grunt workers.
- **Quick wins.** Skeptical lawyer partners must see results to keep funding.
- **MVA cases back.** New motor vehicle accident cases stalled when Google was shut off.
- **AI and ChatGPT visibility.** He wants to rank in AI, but the ChatGPT ads account is stuck.

What is stopping him:

- **Few doers.** The team is thin and leans on borrowed capacity.
- **Google history.** High call volume, many irrelevant calls, no consistency.
- **No foundation.** No practice-area pages, a GBP that hides the address, reviews just starting.
- **Partner skepticism.** He says the lawyers want a 90-day review or an out.
- **No tracking.** Pixel may be missing, and there is no cost-per-case data.

Why This Marketing Package

What it does for him:

- Gives him one team and one model to follow instead of piecemeal marketing.
- Rebuilds steady MVA case flow and a base for local maps and AI visibility.
- Produces trackable early wins he can show his partners.

Full Service Marketing — Starter | $5,697/mo stand-alone

- Personal injury means Essentials is hidden, so Starter is the minimum tier.
- Revenue is unverified: HubSpot range $180K–$960K, midpoint $570K. Confirm it.
- Seller locked Starter stand-alone and removed Elite Coach Plus on Oct 28.
- Seller asked for a custom $7,121.50/mo price. Not supported, so catalog price stays.

Why No Coaching Package (Yet)

- Elite Coach Plus was removed at the seller's request, so no bundle discount applies.
- Roadmap Phase 2 adds a Fractional COO once MVA flow is steady and the team must scale.
- ChatGPT Ads were called "bundled in" on the call but are not a catalog deliverable. Confirm.

Why This Ad Spend

What it does for him:

- Puts MVA searches in front of injured people in New York first, so case flow restarts.
- Funds Local Service Ads and Meta retargeting so more traffic turns into signed cases.

Recommended Ad Spend Range:

- **Conservative:** $10,000/mo — the MVA and high-competition PI minimum.
- **Aggressive:** $20,000/mo — from the decision file, within the $25,000 Starter cap.

Estimated Return on Investment:

- **Conservative:** ~2.6 cases x $2K = ~$5.1K/mo vs. $10K spend = ~0.5x return.
- **Aggressive:** ~6.9 cases x $2K = ~$13.8K/mo vs. $20K spend = ~0.7x return.
- **Flag:** Both are under 1x. Confirm his real fee per MVA case and close rate before the call.

All figures are estimates. Not guaranteed. Case value is his $1.5K–$2.5K; close rate is the 15% default.

How the range was calculated:

- **Conservative:** MVA Google PPC minimum $10,000, matching the PI high-competition floor.
- **Aggressive:** $20,000 from the decision file (20% rule on 2x revenue, held to the tier cap).
- Total at conservative: $15,697/mo = 33.0% of revenue. Under the 35% cap.
- Total at aggressive: $25,697/mo = 54.1% of revenue. Over the cap, so review with sales ops.

If He Pushes Back

"There should be a 90-day review or an out. The lawyers won't sign up."

The rep proposed a six-month minimum on the call. Offer a 90-day scorecard review of cost per signed case, and confirm term options with sales ops before promising an out.

"Google cost us money last time."

He said it ran negative up front and paid back as cases settled. This time we tighten keywords, add call screening and track cost per signed case. Do not promise ROI.

"Can you do a lower price?"

Custom prices are not supported. Price changes only by changing the tier or adding products, and he has not asked for either.
