Dominant Buying Motive: TIME FREEDOM + MISSION

Joshua wants a firm that runs without him so he can take a 6-week Himalaya trip and fully fund his nonprofit education work.

"I want to take a 6-week Himalaya hiking trip when the firm is self-sustaining."

"The firm can run 1-2 weeks without me before things start to break — contract reviews pile up, litigation deadlines get close."

"I'm financially comfortable but not motivated purely by money — the revenue growth funds the nonprofit work."

What he wants:

- **Freedom from daily dependency.** Wants the firm to run 6+ weeks without him — not 1-2.
- **A funded nonprofit mission.** Education Elevated and women's education initiative need predictable profit to operate.
- **A scalable subscription model.** Wants to grow the outsourced general counsel business to \$5M-\$8M.
- **Time with young kids.** Stated financial means exist but time freedom does not yet.

What is stopping him:

- **No digital lead system.** 100% referral-dependent — revenue is capped by referral volume.
- **Personal litigation bottleneck.** Handles all 20-25 active cases himself; no second attorney in place.
- **Zero Google reviews.** Completely invisible in local search — competitors with 8-22 reviews hold every map pack slot.
- **No operations playbook.** Firm knowledge lives in Joshua's head; delegation is limited by documentation gaps.

Why This Marketing Package

What it does for him:

- Builds a predictable subscription client pipeline independent of referrals — monthly revenue stops depending on word-of-mouth.
- Captures the 'outsourced general counsel for contractors' keyword window before competitors figure it out.

Full Service Marketing Starter | \$4,847/mo bundled

- Revenue \$780K/yr: Starter tier (\$400K-\$1M). No PI restrictions; Tier 4 market (Layton/Davis County, UT).
- Website rebuild required (5+ yr old design, no bio, no homepage form) — Full Service mandatory, not ads-only.
- NAP inconsistency (dual address), 0 Google reviews, no map pack visibility — all core deliverables address these.

Why This Coaching Package

What it does for him:

- Builds the intake process for ad-generated leads and the profit tracking that shows what Joshua actually keeps.
- Keeps the \$100K/month goal on a structured timeline — not a vague aspiration.

Elite Coach Plus | \$3,200/mo bundled

- Revenue \$400K-\$1M; Fractional COO hidden under \$1M — add at Phase 2 when \$100K/month is reached.
- Weekly coaching + practice area masterminds + quarterly workshops + 1 annual in-person; all included.

Why This Ad Spend

What it does for him:

- Subscription LTV (\$24K per client at \$1K/mo x 24 months) makes standard CPL projections dramatically conservative.
- First-mover on 'outsourced general counsel for contractors' — no competitor owns this keyword in Utah.

Ad Spend Range & Estimated ROI:

- **Conservative \$5,000/mo:** 42 leads x 15% = 6 cases x \$5K = \$30K revenue; 6x return. (Bus. Law minimums: PPC \$3,500 + Meta \$1,200.)
- **Aggressive \$14,500/mo:** 145 leads x 15% = 22 cases x \$5K = \$110K revenue; 7-8x return. (\$1.2M goal x 20%/12 = \$15,153; capped at \$14,500 for 35% compliance.)
- Total at aggressive: \$8,047 + \$14,500 = \$22,547/mo = 34.7% of revenue — under 35% cap.

Estimates using \$5K default case value. Subscription LTV is significantly higher. Not guaranteed.

If He Pushes Back

"I tried Google Ads before and it didn't work."

His \$1,000 test had no strategy, no landing page, no follow-through — not a failed channel, a failed experiment. A managed campaign with keyword targeting and call tracking is categorically different.

"LSA was too expensive — \$120/lead vs. \$60 for PPC."

Correct call — with zero reviews, LSA is not competitive regardless of CPL. PPC first, build to 10+ reviews, then layer in LSA. Dan already aligned on this approach.

"What's the ROI on the subscription model specifically?"

At \$1K/mo x 24 months = \$24K LTV per subscription client. At 6 conservative clients/month, that is \$144K in lifetime value from \$5K in ad spend — 28x+ lifetime return.

"I'm probably going to go with you guys — I just need to see the numbers."

Buying signal. Lead with subscription LTV math, not default case values. Anchor with the review gap (0 vs. SSHK's 22) and the zero-competition keyword window.
