

The Sharp Firm

Prospect Snapshot

Owner	Revenue	Team	Stage	Close Rate	Location
Lance Sharp	~\$570K est. (low conf.)	2 (Lance + Laura)	Stage 3	15% default	Austin, TX

Dominant Buying Motive: FREEDOM

Lance wants a done-for-you system that gets him out of personally screening every low-value call, so he can build the truck/auto niche practice he actually wants.

"Hell no. (Lance's response when asked if he'd DIY social/video content himself)"

"Rejects ~99% of Med/Dental Mal inquiries due to case quality; will only take catastrophic MedMal."

What he wants:

- **Out of the low-value intake grind.** Fielding 5-10 med/dental mal calls a day, rejecting 99% himself.
- **A real truck/auto pipeline.** Explicitly wants to pivot toward auto and 18-wheeler cases.
- **Done-for-you, not DIY.** Said "hell no" to producing his own social/video content.
- **To dominate the truck niche.** Open to a distinct brand/GMB to rank in Maps for truck cases.

What is stopping him:

- **Burned by prior vendors.** Rise Up PPC collapsed after a Google change; a year of SEO gave poor ROI for auto/truck.
- **Can't outspend the big players.** Named Thomas J. Henry and Jim Adler as firms he cannot outbid on core PPC terms.
- **No systems behind him.** No CRM, no Meta pixel, no LSA — everything runs through him personally.
- **Revenue confidence is low.** Not stated on the call; HubSpot band is wide (\$180K-\$960K) — confirm before finalizing.

Why This Marketing Package

What it does for him:

- Puts real budget behind the auto/truck pivot instead of relying on organic med-mal momentum.
- Avoids the PPC arms race he already lost — leads with Meta and LSA, not head-on Google bidding.

Full Service Marketing — Starter | \$4,997/mo bundled

- Revenue band + multiple practice areas both point to Starter (Essentials requires single practice area).
- No website rebuild needed — mobile-responsive, ~12-18 months old, has bios and practice pages.
- Retail \$5,697/mo vs. bundled \$4,997/mo — saves \$700/mo.

Why This Coaching Package

What it does for him:

- Structured path to delegate intake triage instead of running it all personally.
- Builds cost-per-lead/cost-per-case visibility he doesn't have today — decisions are gut feel now.

Elite Coach Plus | \$3,200/mo bundled

- Revenue band (\$400K-\$1M) points here regardless of exact team-size count (2 vs. 3).
- Retail \$3,497/mo vs. bundled \$3,200/mo — saves \$297/mo. Total bundled savings: \$997/mo.
- Total monthly investment: \$8,197/mo (marketing + coaching, before ad spend).

Why This Ad Spend

What it does for him:

- Buys leads through channels he can actually win — Meta and LSA — not a PPC war he's already lost.

Recommended Ad Spend Range:

- **Conservative:** \$10,000/mo — PI High-competitiveness floor (LSA + Meta Retargeting + Lead Gen minimums).
- **Aggressive:** \$18,000/mo — 20%-rule calc, corrected down from the pipeline's \$20,000 placeholder (see workings).

Estimated Return on Investment:

- **Conservative:** ~7 cases x \$7.5K avg = ~\$52.5K/mo vs. \$10K spend = ~5.25x return.
- **Aggressive:** ~16 cases x \$7.5K avg = ~\$120K/mo vs. \$18K spend = ~6.67x return.

Estimates based on industry CPL benchmarks and a 15% default close rate. Not guaranteed.

How the range was calculated:

- **Conservative:** LSA \$2K + Meta Retargeting \$1.5K + Meta Lead Gen \$6K = \$9.5K; PI High floor (\$10K) governs.
- **Aggressive:** 2x revenue x 20% / 12 = \$19K; Austin Tier 3 (x1.15) = \$21.85K; minus \$4,997 fee = \$16,853, rounded to \$18K.
- At the \$570K revenue estimate, fees + conservative ad spend run ~38.3% of monthly revenue — over the 35% cap. Confirm actual revenue before finalizing; prior \$7.5-8K/mo agency spend suggests it likely supports this.

If He Pushes Back

"I already tried PPC and SEO — why would this be different?"

Rise Up's PPC collapsed after a Google policy change; SEO gave poor ROI for auto/truck. This leads with Meta and LSA — pay-per-lead, not pay-per-click — to avoid the Thomas J. Henry/Jim Adler bidding war that broke the last approach.

"I'm already talking to other vendors for social/video/AI marketing."

Good — that confirms he sees the gap. Position this as the only option bundling the marketing engine with the coaching/delegation support he needs to get time back, not just more leads to screen.

"This is more than the ~\$3,500/mo we talked about."

That figure was a rough example, not a quote. \$8,197/mo bundles marketing and coaching, saving \$997/mo vs. retail; ad spend is separate and can start at the \$10,000 floor.
