Prospect Snapshot

Owner	Revenue	Team	Stage	Practice	Location
Benjamin Krause	~\$750K est.	3–5 staff	Stage 4	VA Benefits	Minneapolis (national)

Dominant Buying Motive: MISSION & SCALE

Benjamin wants the most trusted veterans law brand in America — and a firm that serves thousands of veterans a year without him in every case.

"I want to help as many veterans as possible get the benefits they've earned — that's why I do this."

"I've been thinking a lot about AI tools and how they could help us scale without just adding more staff."

What he wants:

- **Thousands of veteran clients served.** He built the authority — he needs the volume to match it.
- **A firm that runs without him in every case.** AI and systems handle what he shouldn't be doing.
- **DisabledVeterans.org converting to consultations.** A decade of content should flow into the firm pipeline.

What is stopping him:

- **Zero paid advertising.** All leads are organic — no engine captures the demand his content creates.
- **No intake automation.** National practice with no 24/7 coverage means veterans get competitors when he's unavailable.
- **Benjamin is the bottleneck.** He is brand, attorney, and content creator — his hours cap how many veterans he can serve.

Why This Marketing Package

What it does for him:

- Turns his decade of authority into a paid lead engine — veterans find Krause Law before CCK Law.
- Puts Krause Law above every competitor in Google the moment Google Screened LSA goes live.

Full Service Marketing — Starter | \$4,847/mo bundled

- National VA practice with zero paid presence — this is the entire conversion engine built from scratch.
- LSA and Google Ads capture veterans who have already decided they need an attorney right now.
- Meta retargeting on DisabledVeterans.org visitors converts warm audiences who already trust Benjamin.

Why This Coaching Package

What it does for him:

- Provides the accountability structure to transition from Stage 4 content-operator to Stage 6 law firm owner.
- Builds the management layer so Benjamin can focus on strategy and advocacy instead of everything else.

Elite Coach | \$2,600/mo bundled

- Benjamin runs the brand, the firm, and the content simultaneously — coaching separates those roles.
- Stage 4→6 requires explicit milestone accountability; without it he stays operator-mode regardless of revenue.

Why This Ad Spend

What it does for him:

- Creates the first external paid pipeline in the firm's history — veterans ready to hire find Krause Law before CCK Law.
- Starting at \$5K proves channel ROI before scaling; Benjamin will see attributable cases within 60 days.

Recommended Ad Spend Range:

- **Conservative:** \$5,000/mo — PPC \$3,000 + LSA \$2,000; minimum viable to capture high-intent VA attorney searches.
- **Aggressive:** \$9,000/mo — stays under 35% cap at \$750K estimated revenue (\$21,694/mo = 34.7% of revenue).

Estimated ROI:

- **Conservative:** 6 cases x \$3,500 = \$21,000/mo vs. \$5,000 spend = 4.2x return.
- **Aggressive:** 14 cases x \$3,500 = \$49,000/mo vs. \$9,000 spend = 5.4x return.

All figures are estimates. Krause Law's retroactive benefit award fees may significantly exceed \$3,500/case.

How the range was calculated:

- Conservative: Disability minimums PPC \$3K + LSA \$2K = \$5,000. CPL blended ~\$120. Close rate 15%.
- Aggressive: 35% cap at \$750K = \$21,875/mo max. Package MRR \$12,694 leaves \$9,181 for ads.

If He Pushes Back

"I already have a huge audience through DisabledVeterans.org."

Organic reach creates awareness — it does not capture the demand it creates. CCK Law and Berry Law are running paid ads targeting the exact veterans who read his content. He is educating them; they are converting them.

"\$12,694 a month is a big commitment."

At \$750K revenue, \$12,694 is 20% of monthly revenue — under the 35% cap. A conservative paid ads return of \$21,000/month covers the full investment. The math improves rapidly as revenue grows toward \$1.5M.

"I haven't had time to figure out AI tools."

That is exactly what AI Accelerator Level 1 solves. The Fractional CTO handles strategy and implementation — Benjamin maps the first three automation priorities and month one builds begin. He does not have to figure it out himself.
