Dominant Buying Motive: LEGACY ON HIS OWN TERMS

Wants 5-10 catastrophic/TBI cases per year for 5-7 more years, then exits when he chooses — not when an empty docket forces him out.

"I need leads yesterday."

"I understand PPC cost-per-call can reach \$625-\$1,500 in this market."

What he wants:

- **Selective, high-value caseload.** Catastrophic injury, TBI, trucking — cases he is built to try.
- **A pipeline that doesn't require him.** Leads that arrive without referrals from a network that has dried up.
- **Exit on his timeline.** Step away from practice when he chooses.

What is stopping him:

- **Referral collapse.** 10-20 leads/month dropped to 1-2 — 90% decline, no replacement system.
- **Zero digital presence.** Not in local 3-pack, Google Ads, LSA, or Meta for any practice area.
- **8 Google reviews.** Structural SEO gap; competitors have 76-900+ reviews.
- **Solo intake bottleneck.** Andrew handles every call — not scalable when ads launch.

Why This Marketing Package

What it does for him:

- Creates the first predictable lead pipeline that doesn't depend on referrals that are no longer coming.
- Targets catastrophic injury, TBI, and trucking specifically — not generic PI volume leads.

Full Service Marketing — Starter | \$4,847/mo bundled

- PI practice area mandates minimum Starter tier — Essentials not available for personal injury.
- Website rebuild required: 5-10 year old site, no practice-area pages, mobile PageSpeed likely 40-65.
- Scoping approval required — revenue estimated at \$180K (under \$250K threshold).

Why This Coaching Package

What it does for him:

- Builds intake and process systems that free Andrew from being the bottleneck on every call.
- Provides accountability structure so the selective final chapter becomes a plan with milestones.

Elite Coach | \$2,600/mo bundled

- Revenue under \$250K — Elite Coach is the correct tier; Elite Coach Plus requires \$400K+ revenue.
- Team of 2 with no ops staff — Master's Circle not applicable.
- Scoping approval required alongside marketing package.

Why This Ad Spend

What it does for him:

- Fills the pipeline immediately — no waiting for SEO when referrals have already dropped 90%.
- Dedicated catastrophic injury and TBI campaigns attract the specific cases Andrew wants.

Recommended Ad Spend Range:

- **Conservative:** \$10,000/mo — PI high-competitiveness hard floor for Sacramento.
- **Aggressive:** \$25,000/mo — consistent with Andrew's stated awareness of \$625-\$1,500/call CPCs.

Estimated ROI:

- **Conservative (\$10K):** ~50 leads x 15% = 7 cases x \$8K = \$56K/mo vs. \$10K spend = ~5x return.
- **Aggressive (\$25K):** ~130 leads x 15% = 19 cases x \$8K = \$152K/mo vs. \$25K spend = ~6x return.

All figures are estimates. Case value uses practice area defaults — not stated on call.

Calculation basis:

- **Conservative:** PI high-competitiveness hard floor. Channel split: Google PPC \$5K + LSA \$2K + Meta \$3K.
- Total fees + ad spend at aggressive: \$32,447/mo. Discuss ROI trajectory — exceeds 35% of current estimated revenue.

If He Pushes Back

"Paid leads won't be the catastrophic cases I want."

Dedicated catastrophic injury and TBI landing pages filter for the right case type from the first click. Mastagni Holstedt is already doing this for the same searches Andrew needs to win.

"I tried SEO with FineLaw and it was inconsistent and expensive."

SEO alone cannot compete against Demas (900+ reviews) or AutoAccident.com (40 years). SMB Team launches paid ads and LSA first for immediate leads while SEO compounds over time — different tools for different timelines.

"I want a performance-based model — pay when cases generate revenue."

SMB Team's monthly reporting shows every dollar spent against cases generated — full accountability without a fee split. Catastrophic cases take 2-4 years to resolve; a split model would create misaligned incentives for both sides.
