

Beyond Business Contracts, PA

Sales Companion | September 18, 2026 | Rep: Michael Kopp

Prospect Snapshot

Owner	Revenue	Team	Stage	Close Rate	Location
Tania Bartolini	\$20-30k/mo	2 (+VA)	Stage 3	15% (default)	Ocala, FL

Dominant Buying Motive: FREEDOM & DOMINANCE

Tania wants to escape litigation burnout and become the top title attorney in Ocala, running a million-dollar firm as CEO/rainmaker over hired attorneys.

"Shifting to 100% transactional law (business, real estate, closings) to build a scalable, AI-driven firm and escape litigation burnout."

"a consistent \$20-30k/month"

"Scale to a million-dollar firm"

What she wants:

- **Escape litigation burnout.** Pivot fully to transactional work.
- **Reclaim her time** for community involvement.
- **Own the title-attorney niche** in Ocala.
- **Scale to a million-dollar firm** as CEO/rainmaker over hired attorneys.

What is stopping her:

- **She is the entire team** — just her and one part-time VA.
- **Still carrying ~30% litigation** caseload while leading the pivot.
- **No documented intake process** or after-hours coverage.
- **No AI systems yet** for document collection or deadline tracking.

Why This AI Automation Package

What it does for her:

- Takes document collection, deadline tracking, and closing coordination off her plate.
- Gives her a dedicated Fractional CTO leading the AI build.

AI Accelerator L1 — Fractional CTO Level 1 | \$3,297/mo bundled

- Matches what she asked about on the call — AI automation + coaching, not marketing.
- Revenue-floor exception on record: approved by Carolyn Webb (Slack 2026-09-17) given \$250K/yr is under the \$400K LAW floor.
- Team of 2 meets the minimum 1-2 staff needed for implementation.

Why This Coaching Package

What it does for her:

- Gives her the direct, collaborative coaching style she said she wants — not a "yes-man" program like her past HTM experience.
- Builds a structured 90-day game plan around the pivot to transactional work.
- Keeps her accountable to the "million-dollar firm" goal with a defined planning cadence.

Elite Coach | \$2,600/mo bundled

- Matches the \$250K-\$400K revenue band for Elite Coach.
- Pairs naturally with the AI Accelerator engagement above.
- Not eligible for Master's Circle given a team size of 2.

Beyond Business Contracts – Sales Companion (continued)

On Marketing & Ad Spend (Not Recommended)

- The discovery call was explicitly about SMBTeam's AI automation and coaching solutions, not marketing or lead generation (Fathom transcript meeting purpose: "Discuss Tania's firm growth goals and SMBTeam's AI and coaching solutions").
- No paid-ads, SEO, or lead-gen gap was identified on the call – Full Service Marketing is intentionally excluded from this proposal.
- Revenue-floor note for sales: \$250K/yr is under the standard \$400K LAW floor and the \$300K scoping-approval escalation threshold – Carolyn Webb reviewed and approved this package as a documented exception (Slack thread 1789401714.922179, 2026-09-17). No further approval needed to present as scoped.
- 35% cap check: combined \$5,897/mo investment = 28.3% of \$20,833/mo monthly revenue – within the cap.

If She Pushes Back

"\$5,897 a month feels like a lot for a firm doing \$20–30k a month."

That is 28.3% of monthly revenue – under SMB Team's 35% cap. Carolyn Webb has already reviewed and approved this exact scope given the seller-corrected revenue figure.

"I already had a bad experience with a coaching program (HTM) that felt like a yes-man setup."

Elite Coach is built around direct, collaborative 90-day planning – explicitly not the passive format she described disliking about HTM.

"Is this really just marketing with a different name?"

No marketing package is included at all. This is scoped entirely around the Fractional CTO/AI automation and coaching she asked about on the call.

"Can a firm my size actually use AI automation like this?"

Her team of 2 (her + Joshua) meets SMB Team's minimum for AI Accelerator engagements, and Fractional CTO Level 1 is built for owners with limited time to manage rollout internally.

Investment At A Glance

AI Accelerator L1 – Fractional CTO Level 1

Managed AI workspace + dedicated Fractional CTO for intake/document/closing automation.

\$3,297/mo

~~\$3,797~~ stand alone

Elite Coach

Weekly group coaching + 90-day game plan, direct/collaborative style.

\$2,600/mo

~~\$3,497~~ stand alone

Total: \$5,897/mo | Save \$1,397/mo by bundling | 28.3% of monthly revenue (under 35% cap) | No ad spend recommended
