Prospect Snapshot

Owner	Revenue	Team	Stage	Close Rate	Location
Frances Tomes	~\$650K (transcript)	7 (5 remote)	Stage 4	15% (default)	Freehold, NJ

Dominant Buying Motive: FREEDOM

Frances wants a firm that runs without her — the 60-hour weeks and staff micromanagement to finally end, not just more revenue.

"Frances is struggling with inefficient staff, working 60hr weeks, and feeling overwhelmed despite \$650k revenue"

"Address foundation issues before considering lead generation services"

What she wants:

- **A team that runs without her.** Tired of micromanaging inefficient staff who lack follow-through.
- **Real time back.** Fewer than 60-hour weeks — not just more revenue at the same personal cost.
- **A fix that sticks.** Unlike the 2-year HTM coaching engagement and the local COO engagement now ending.

What is stopping her:

- **No defined intake process.** Staff described as reactive, lacking follow-through.
- **WhatsApp coordination.** Cuts Frances out of visibility into day-to-day handling.
- **High turnover.** ~30 employees turned over since 2020 — constant re-training, no bench strength.
- **Two prior fixes ending.** 2-year HTM coaching and local part-time COO haven't solved the core issue.

Why No Marketing Package This Round

What it does for her:

- Protects her focus and budget for the fix she actually asked about — operations — instead of adding a service she explicitly said to hold off on.
- Keeps this recommendation matched to what she said on the call, building trust instead of reading as a generic upsell.

No marketing package this round

- Transcript states directly: "Address foundation issues before considering lead generation services."
- Revenue/practice mix would otherwise qualify for Full Service Marketing Starter (\$4,997/mo) — held back intentionally, not due to ineligibility.
- No named competitor (Detzky Hunter & DeFillippo, Manchel, Lyons & Associates) was confirmed running ads either — market isn't urgently contested yet.

Why This Coaching Package

What it does for her:

- Puts a dedicated Fractional COO Advisor directly on the exact problem she called about — an inefficient, high-turnover team she's tired of managing.
- Pairs that with weekly group coaching and mastermind access, so she isn't rebuilding accountability alone this time.
- Gives her a real shot at working under 60 hours a week without revenue dropping.

Elite Coach Plus + FCOO Advisor | \$5,694/mo bundled

- Revenue ~\$650K sits in the \$400K–\$1M band; FCOO products require \$500K+, which this firm clears.
- Team of 7 mid-transition off a part-time local COO matches the "growing team" tier exactly.
- Master's Circle not eligible — no dedicated ops/marketing/intake staff confirmed on the call.
- \$5,694/mo is well under the 35% revenue cap (\$18,958/mo at \$650K annual).

Why No Ad Spend This Round

What it does for her:

- Avoids spending her budget on lead generation before the team and intake can actually handle more volume.
- Keeps the recommendation credible — she is not being sold something she told the rep to hold off on.

Recommended Ad Spend Range:

- **Conservative:** \$0/mo — no ad spend recommended in Phase 1.
- **Aggressive:** \$0/mo — deferred to Phase 2 once operations are stabilized.

Estimated Return on Investment:

- **Conservative:** N/A — no ad spend this phase.
- **Aggressive:** N/A — no ad spend this phase.

All figures are estimates. Not guaranteed.

How the range was calculated:

- N/A this round — marketing excluded per the call-purpose override (see section_11_workings.txt).
- Total spend at \$5,694/mo bundled (no ad spend) = 10.5% of \$650K annual revenue. Well under the 35% cap.

If She Pushes Back

"Why aren't we doing any marketing? Don't I need more clients?"

You told us directly on the call to fix operations before lead generation — we're following that, not skipping marketing because you don't qualify. Full Service Marketing Starter (\$4,997/mo) is ready to add in Phase 2 the moment your team can handle more volume.

"I already tried a COO and a coaching program — why will this be different?"

Your prior engagements (2-year HTM coaching, local part-time COO) gave you a 180-page policy manual and staff KPIs — real infrastructure already built. What's been missing is someone who owns making the team actually follow it day to day. That's exactly the FCOO Advisor's job.

"Is \$5,694/month worth it if I don't even know my real profit margin yet?"

That's exactly why Phase 3 adds a Fractional CFO Advisor once operations stabilize. At \$5,694/mo you're at about 10.5% of your stated \$650K revenue — well under a level that would strain cash flow even before margins are confirmed.

"What about competitors already ahead of me, like Lyons & Associates?"

None of the three named threats — Lyons & Associates, Detzky Hunter & DeFillippo, or Robert Manchel — were confirmed running paid ads either. The market isn't moving fast enough to require lead-gen spend before your operations are fixed.
