

Velie Global Law Firm, P.L.L.C.

Sales Companion | August 17, 2026 | Rep: Jacob Meissner

Prospect Snapshot

Owner	Revenue	Team	Stage	Close Rate	Location
Jon Velie	~\$2.5M (2026 proj.)	12+ attys / 2 offices	Stage 4	15% (default)	Norman, OK / Dallas, TX

Dominant Buying Motive: FREEDOM (+ SCALE, downstream)

Jon wants Dallas systematized so he can step back from daily litigation and lead the firm's strategy and expansion into new markets.

No verbatim transcript — points below are paraphrased from an AI meeting summary.

What he wants:

- **Step back from daily Dallas litigation.** Jon is personally handling casework that should belong to a system.
- **Systemize Dallas before expanding.** Dallas must run independently before New York or San Francisco.
- **Know his real numbers.** Profitability is unknown today; goal is a 20–30% margin within 12 months.

What is stopping him:

- **No delegation structure in Dallas.** Jon is the intake system, the closer, and the litigator all at once.
- **Dallas has no formal marketing or intake process.** It runs entirely on referrals with no documented follow-up.
- **No financial visibility.** There is no system to show what the firm actually keeps.
- **Pam Velie's CGO role is brand new.** She was just hired and has a system to build, not one to run yet.

Why This Operations Package

What it does for him:

- Gives Jon a dedicated operator to build the Dallas systems he doesn't have time to build.
- Turns Pam's new CGO role into an actual system to run, and replicates Norman's intake model in Dallas.

Fractional COO Advisor | \$3,297/mo bundled

- Revenue (\$2.5M) and team structure (under 5 dedicated ops staff) point to FCOO Advisor over Master's Circle, which requires 5+ dedicated staff.
- Directly matches the transcript's stated ask for Fractional COO support. Includes Elite Coach group deliverables.
- Stand-alone price is \$3,797/mo — bundling saves \$500/mo.

Why This Technology Package

What it does for him:

- Integrates Clio, QuickBooks, and Stripe into one stack, eliminating manual work costing the firm money.
- Deploys AI Workforce Pro-style skills for intake and billing, led by a dedicated Fractional CTO.

AI Accelerator L2 — Fractional CTO Level 2 | \$4,997/mo bundled

- Corrected revenue of \$2.5M (transcript-stated, not the earlier HubSpot estimate) places the firm in the \$1.5M–\$3M L2 band.
- Directly matches the transcript's stated ask for a Fractional CTO to integrate the tech stack and build automations.
- Stand-alone price is \$5,797/mo — bundling saves \$800/mo. Foundation Sprint add-on available (\$14,997 one-time).

Velie Global — Sales Companion (continued)

Why This Ad Spend (Phase 2 — Not Part of Current Recommendation)

What it does for him:

- Once Dallas's operations and tech stack are systematized, ad spend gives the office its own real lead generation engine instead of relying on referrals.
- This is a Phase 2 investment, introduced only after the operational foundation is in place — matching the sequencing Jon himself described on the call.

Recommended Ad Spend Range:

- **Conservative:** \$13,000/mo — channel minimums across Immigration + PI (Google PPC + LSA).
- **Aggressive:** \$30,000/mo — based on Dallas's stated 2026 revenue goal and Dallas Tier 1 geo multiplier.

Estimated Return on Investment:

- **Conservative:** 6 cases x \$5.5K = \$33K/mo vs. \$13K spend = 2.5x return.
- **Aggressive:** 16 cases x \$5.5K = \$88K/mo vs. \$30K spend = 2.9x return.

All figures are estimates. Not guaranteed.

How the range was calculated:

- **Conservative:** Immigration (PPC \$3,000 + LSA \$2,000) + PI (PPC \$6,000 + LSA \$2,000) = \$13,000.
- **Aggressive:** \$1.25M Dallas goal x 20% ÷ 12 = \$20,833. Tier 1 Dallas (1.5x) = \$31,250, rounded to \$30,000.
- Total spend at aggressive (\$30,000) + Phase 1 fees (\$8,294) = \$38,294/mo = 18.4% of monthly revenue. Under the 35% cap.

If He Pushes Back

"We already have Pam auditing operations — why do we need an outside COO too?"

Pam's role is strategic oversight. The Fractional COO builds and implements the day-to-day systems (intake replication, case screening, tech integration) so her audit turns into a working system instead of a plan on a shelf.

"Isn't Norman's system already working — why spend on this at all?"

Norman's system works because someone built it deliberately. Dallas is a different office with none of that infrastructure — replicating it takes dedicated implementation time neither Jon nor Pam currently has.

"We're not ready to talk about marketing yet."

Agreed — that's why marketing isn't part of this recommendation. This proposal is built entirely around the Fractional COO and CTO services discussed on the call; ad spend is flagged only as a Phase 2 step once Dallas's systems are in place.

"How do we know this pays for itself?"

The \$8,400/year cost of one unintegrated Clio feature, cited on the call, already offsets a meaningful share of the CTO investment — before counting the unprofitable Dallas cases the FCOO's screening process is designed to prevent.

Investment At A Glance

Fractional COO Advisor

Builds and implements Dallas's operating systems.

\$3,297/mo

~~\$3,797~~ stand alone

AI Accelerator L2 — Fractional CTO Level 2

Integrates tech stack and deploys AI Workforce Pro skills.

\$4,997/mo

~~\$5,797~~ stand alone

Recommended Ad Spend (Phase 2)

Goes to Google, LSA, and Meta — not to SMB Team. Introduced once Dallas ops are systematized.

\$13,000–\$30,000/mo

Total: \$8,294/mo + \$13,000–\$30,000 Phase 2 ad spend | Save \$1,300/mo by bundling | 4.0%–18.4% of revenue (under 35% cap)
