Dominant Buying Motive: FINANCIAL FREEDOM

Build a bilingual Houston PI firm that generates \$300K–\$1M/yr in profit without consuming Gerald or his wife's time.

"Target a September 1 launch, with a first-year profit goal of \$300K–\$1M."

"Focus on marketing and intake for high-value cases — refer to trusted partners for a referral fee."

What he wants:

- **Income without daily involvement.** The referral model generates fees while automation handles intake.
- **Minimal wife burden.** Her attorney role stays frictionless — the system does the work.
- **The bilingual PI brand.** Balboa Law becomes Houston's go-to firm in English and Spanish.

What is stopping him:

- **Zero digital infrastructure.** No website, GBP, or reviews entering one of the most competitive PI markets in the US.
- **Physical office TBD.** Without a verified address, LSA and 3-Pack cannot be unlocked before September 1.
- **Intake not built yet.** Automation model doesn't exist — must be operational before ad spend begins.
- **Cash flow timing gap.** PI referral fees settle in 12–36 months; year-one profit goal requires a plan for the delay.

Why This Marketing Package

What it does for him:

- Builds the entire digital infrastructure — website, GBP, ads, LSA, Meta — in English and Spanish before September 1.
- Houston PI expertise: SMB's paid ads team knows which \$170–\$407/click keywords produce cases vs. burn budget.

Full Service Marketing — Starter | \$4,847/mo bundled

- PI practice: Essentials tier hidden; Starter is the minimum qualifying tier.
- Custom bilingual website required — firm has no live site; 90-day SMB build targets September launch.
- Starter supports up to \$40K/mo ad spend; well above the \$10K–\$25K recommended year-one range.
- Scoping approval required: revenue under \$300K (pre-launch firm).

Why This Coaching Package

What it does for him:

- Strategic guidance to build a referral-fee PI model correctly — Gerald has no prior law firm ownership experience.
- Cash flow modeling for the 12–36 month referral settlement timeline turns the \$300K–1M goal into an executable plan.

Elite Coach | \$2,600/mo bundled

- Revenue under \$400K: Elite Coach is the correct tier per eligibility rules.
- Scoping approval required: revenue under \$250K; confirm 4 months of funds available before signing.
- Includes weekly group coaching, PI masterminds, quarterly workshops, annual in-person event.

Why This Ad Spend

What it does for him:

- Activates the lead flow engine the income goal depends on — in Houston PI, first-mover visibility wins cases.
- Bilingual campaigns reach Spanish-speaking Houston PI prospects at lower CPCs with equivalent referral fee potential.

Recommended Ad Spend Range:

- **Conservative:** \$10,000/mo — PI hard floor, high-competitiveness Houston. Mix: 65% Google, 25% LSA, 10% Meta.
- **Aggressive:** \$25,000/mo — upper end of Gerald's \$8,333–\$16,667/mo budget; within Starter's \$40K cap.

Estimated ROI (all figures estimates; referral fees paid at settlement):

- **Conservative:** 2–3 referrals/mo x \$20K fee = \$40K–\$60K pipeline vs. \$10K spend = 4–6x return.
- **Aggressive:** 5–7 referrals/mo x \$25K fee = \$125K–\$175K pipeline vs. \$25K spend = 5–7x return.
- **Calculation:** Blended CPL ~\$125 conservative (20% cushion); ~\$100 aggressive. 15% close rate. New firm discount applied.

If He Pushes Back

"This is a lot of money for a firm that hasn't launched yet."

Pre-launch is the right time to invest — there are no active leads to lose while infrastructure is being built. Gerald's own estimate of \$100K–\$200K/year for marketing confirms the scale; SMB ensures that budget generates returns rather than being absorbed by \$407/click PI keywords.

"I want to start small and see how ads perform first."

Houston PI CPCs run \$170–\$407/click. Below the \$10K/mo PI hard floor, spend gets consumed before generating case volume. The conservative recommendation is already the minimum that can produce results — below it, results are statistically unlikely.

"My wife is skeptical and needs to see results before committing."

The system is designed so she doesn't have to be involved — automated intake and referral escalation handle everything. Results come fastest when infrastructure is built right before launch. Zehl has 1,262 reviews; Arnold & Itkin has 1,346. Every month of delay widens that gap.
