

The Law Offices of Peter Paul Mendel

Sales Companion | August 10, 2026 | Rep: Jacob Meissner

Prospect Snapshot

Owner	Revenue	Team	Stage	Close Rate	Location
Peter Paul Mendel	~\$3.5K/mo current (transcript); HubSpot est. \$570K/yr conflicts — see notes	1 (solo)	Stage 3	15% (default)	Long Beach, CA

Dominant Buying Motive: SCALE & SECURITY

Peter wants to turn a solo mediation practice into a ~50-mediator platform — but only on a payment model that can never again leave him holding \$500,000 in uncollected fees.

What he wants:

- **A 50-mediator platform.** ~50 mediators, each generating \$20K-\$40K/month long-term.
- **Zero AR risk, permanently.** Upfront payment only, after \$500K uncollected receivables sank his prior practice.
- **A stronger referral engine.** Every engagement today comes from attorney referrals.
- **3 mediations/week short-term.** \$40K/month goal from volume.

What is stopping him:

- **No qualification filter.** Past paid leads were ~90% unqualified "looky-loos."
- **Zero staff.** Peter personally handles intake, case files, and collections.
- **Fragmented directories.** 3 different NAP combos; Avvo/FindLaw still show his old general practice.
- **No mediation-specific revenue tracking.** ~\$3,500/mo reported is legacy work, not mediation.
- **Won't pay retainer pricing without performance guarantees** — direct result of the looky-loo experience.

Why This Marketing Package

What it does for him:

- No marketing package this round — the call was explicitly about coaching and systems, not paid lead volume.
- A retainer-based package now risks repeating the ~90% looky-loo problem from his past paid lead gen.
- Marketing gets revisited once referral/intake systems are proven and a pay-per-signed-case vendor is found.

No Marketing Package — Not Recommended This Round | \$0/mo

- Call-purpose override: transcript states this was explicitly NOT a standard marketing/intake growth call.
- Budget-reality override: Peter wants pay-per-signed-case pricing, not retainer/brand-awareness fees.
- Revenue mismatch: HubSpot estimate (\$570K/yr) conflicts with transcript-stated revenue (~\$42K/yr) — transcript is ground truth.
- Escalation flag (internal only): revenue under \$300K — scoping approval required.

Why This Coaching Package

What it does for him:

- Turns his referral network into a repeatable, filtered pipeline instead of raw, unscreened inquiries.
- Builds the billing/AR discipline that prevents a repeat of the \$500K uncollected-receivables collapse.
- Creates the hiring roadmap to move past a one-person ceiling toward the 50-mediator vision.

Elite Coach | \$2,600/mo bundled

- package_decision.json defaulted to Elite Coach Plus (\$3,200/mo) via the HubSpot-derived band — overridden for the lowest tier given his actual ~\$42K/yr revenue.
- \$2,600/mo clears the \$2,497 minimum MRR floor; correct tier for the \$250K-\$400K band.
- Confirm Peter can sustain 4+ months of this investment given thin current cash flow (internal funds-check).
- AI billing/AR tooling he asked about is included here, not sold separately — he's solo with no support staff, and standalone LAW requires 1-2 staff minimum.

Mendel — Sales Companion (continued)

Why This Ad Spend

What it does for him:

- No ad spend recommended this round — see Marketing Package override notes on page 1.
- Ad spend becomes viable once intake and referral systems are proven and a performance-based vendor is found.

Recommended Ad Spend Range:

- **This Round:** \$0/mo. **Future Phase:** revisit once systems are proven and a vendor is identified.

Estimated Return on Investment:

- **This Round:** Not applicable. **Future Phase:** modeled once a channel/vendor and spend level are chosen.

All figures are estimates. Not guaranteed.

How the range was calculated:

- No calculation applies this round — see call-purpose and budget-reality overrides (Research Notes Step 9).
- package_decision.json's ad spend figures (\$3,500-\$14,000) were not used, since no marketing package is sold in this proposal.

If He Pushes Back

"Why isn't there a marketing package if you're supposed to help me grow?"

Paid marketing isn't the fix right now — his own past paid leads were ~90% "looky-loos." Fixing referral and intake first means future ad spend actually converts.

"\$2,600/month feels like a lot given I'm only bringing in ~\$3,500/month right now."

That's why this is flagged for an internal funds-check. It's the lowest coaching tier, clears the \$2,497 MRR floor — Elite Coach Plus (\$3,200) was intentionally not used.

"Can you guarantee I won't get more looky-loos?"

No guarantee, but the first-90-days plan builds a mediation-specific intake filter his past paid efforts never had.

"What happened to the AI billing/marketing tools I asked about?"

Included inside Elite Coach. Standalone Legal AI Workforce isn't sold separately — he's solo with no staff, and LAW requires 1-2 staff minimum.

Investment At A Glance

No Marketing Package (Not Recommended This Round)	\$0/mo
Coaching-first per transcript override — see notes on page 1.	
Elite Coach	\$2,600/mo
Weekly coaching, referral systems, intake qualification, AR/billing tools.	\$3,497 stand alone
Recommended Ad Spend	\$0/mo — not this round
Revisit once referral/intake systems are proven and a vendor is identified.	

Total: \$2,600/mo + \$0 ad spend | Save \$897/mo vs. Elite Coach stand-alone | 0% of revenue at ad spend (none this round)
