Vijay Law (Vijay Dinakar)

Sales Companion | November 3, 2026 | Rep: Dan Bryant

Prospect Snapshot

Owner	Revenue	Team	Stage	Close Rate	Location
Vijay Dinakar	~$600K (seller-set)	1 (site)	Stage 3	Not stated	San Jose, CA

Dominant Buying Motive: NOT STATED (likely FREEDOM)

Hypothesis: a steadier case pipeline without Vijay being the only bottleneck.

> *"[No transcript or call record] Nothing below is a client quote. Confirm the DBM on the call."*

What Vijay likely wants (confirm):

- **A steadier pipeline.** Visibility today rests on one niche, DV restraining orders.
- **Less dependence on one person.** The site shows one attorney and nine practice areas.
- **To keep the 18-year reputation working.** Avvo is 4.9 across 70 reviews.

What is stopping Vijay (from public research):

- **One-attorney firm.** No other lawyers or staff are listed; support may exist but is unconfirmed.
- **Narrow visibility.** Seen in 1 of 3 DUI searches and 0 of 2 family law searches.
- **Buried contact form.** It sits at the bottom of the homepage.
- **Numbers unknown.** Margins, cost per case and close rate are not stated.
- **Inconsistent firm name.** Directories show three versions of the name.

Why No Marketing Package

Position to take:

- Seller set a coaching-only package (Slack, Oct 29 and Nov 3).
- Be ready to explain the sequencing, because the audit shows visibility gaps.

No marketing package | $0/mo

- The rules pick for $600K and multiple practice areas was Full Service Marketing Starter, then removed by the seller.
- Ask whether Vijay already has an SEO or ad vendor. The notes do not say.
- Ads, LSA and Meta were not observed (no browser). Check live before the call.

Why This Coaching Package

What it does for Vijay:

- A coach and accountability to build delegation and clear roles.
- A plan for where to build visibility first, and a profit baseline.
- Peer masterminds show how other firms grew past one attorney.

Elite Coach Plus | $3,497/mo stand-alone (no marketing bundle)

- Revenue of ~$600K sits in the $400K-$1M band, which calls for Elite Coach Plus.
- Team of 1, so Master's Circle is not available.
- Bundled price of $3,200 needs 2 or more bundle-eligible products, so none is shown.
- Includes weekly group coaching, masterminds, virtual quarterly and one in-person workshop.

Vijay Law — Sales Companion (continued)

Why No Ad Spend (Yet)

What this does for Vijay:

- Keeps the proposal on structure, delegation and numbers first.
- Avoids sending more leads to a one-attorney firm before a process exists.

Marketing position:

- **No marketing or ads in this proposal.** The seller removed marketing from the package.
- **Biggest visible gap:** Ahmed & Sukaram show up across nearly every criminal and DUI search we ran.
- **Real strength:** the DVRO page ranks, and Avvo shows 4.9 across 70 reviews.

Estimated return:

- No ads recommended, so no ad ROI is projected.

All figures are estimates. Not guaranteed.

Checks before the call:

- Total SMB spend is $3,497/mo = 7.0% of monthly revenue ($50,000). Under the 35% cap.
- Google review counts are unconfirmed and PageSpeed was unavailable. Re-check live.
- Revenue is seller-confirmed at $600K, not stated by Vijay. HubSpot range is $180K-$960K.
- Seller notes the client already has AI Workforce Pro - Starter. Do not pitch it.

If Vijay Pushes Back

"I need more cases. Why coaching and no marketing?"
The audit shows the gap: seen in 1 of 3 DUI searches. Coaching sets priorities and capacity first, and marketing can be scoped later.

"I already have strong reviews. What else do I need?"
Avvo at 4.9 across 70 reviews is a real asset. It is not yet showing up in broad San Jose criminal defense and DUI searches.

"I cannot spare time for coaching while in trial."
Group sessions are weekly and workshops are virtual. The first work is roles, so fewer decisions need Vijay.

"$3,497 a month is a lot for my firm."
It is 7.0% of monthly revenue at $600K, and well under the 35% cap. Confirm real revenue first.

Investment At A Glance

Elite Coach Plus Weekly coaching, masterminds, workshops, and accountability.	**$3,497/mo** stand alone, no bundle
