

Mandall Immigration Law

Sales Companion | July 23, 2026 | Rep: Nick Holderman

Prospect Snapshot

Owner	Revenue	Team	Stage	Close Rate	Location
Austin Mandall Rooplall	~\$2M run rate	10 staff	Stage 4	15% (default)	Toronto & Ottawa

Dominant Buying Motive: FREEDOM / SCALE

Austin wants off payment collection and file opening so he can travel and focus on scaling toward his \$100M/year vision.

"Profitability: 55-60% margins, but profits are not strategically reinvested"

"Revenue goal: \$500k/mo by April 2026 (short-term); \$100M/year long-term vision"

What he wants:

- **Off the admin desk.** Stop personally collecting payments and opening files.
- **Real growth data.** See what is actually working instead of guessing week to week.
- **Room to travel.** Time freed up from low-value work to focus on strategy.
- **Market domination.** A firm built to hit \$500K/mo and eventually \$100M/year.

What is stopping him:

- **No reporting.** Current agency gives zero visibility into \$37K-vs-\$111K weekly swings.
- **Slow files.** 75-90 day completion time vs. an ideal 2-3 weeks delays the second retainer.
- **Manual tracking.** Sales are tracked by hand in Apple Notes.
- **No delegation.** Austin still personally does payment collection and file opening.
- **Single channel.** No LSA available in Canada; Meta shut down after a 2025 lead-quality issue.

Why This Marketing Package

What it does for him:

- Replaces the unreported \$28K/mo Google Ads account with practice-area campaigns he can actually see performance on.
- Adds a warm-audience Meta channel back without repeating the 2025 lead-quality mistake.
- Starts closing the review-count gap against Green & Spiegel, Matkowsky, and Kingwell.

Full Service Marketing — Dominate | \$10,497/mo bundled

- Actual current revenue is ~\$2M (transcript), not the \$3M+ HubSpot field — Platinum is not eligible; Dominate fits the \$1M+ aggressive-goals path.
- Current ad spend (\$28K/mo) already sits comfortably inside Dominate's \$75K/mo cap.
- \$500K/mo goal and \$100M/year vision both qualify as 'aggressive goals' under the boundary rule.
- Includes up to 6 GBP locations — room beyond the current Toronto/Ottawa 2-location footprint.

Why This Coaching Package

What it does for him:

- Builds the delegation plan to move payment collection and file opening off Austin's desk.
- Adds accountability structure the firm currently lacks (slow to fire underperformers).
- Starts the path toward a self-managing team without waiting for Master's Circle-level infrastructure.

Elite Coach Plus | \$3,200/mo bundled

- Master's Circle requires a dedicated ops/marketing/intake team member — not confirmed; Austin does admin himself.
- 10-person team exists but no dedicated ops role identified in the transcript — verify with Austin directly.
- Elite Coach Plus is the correct fallback per eligibility rules until a dedicated ops hire is confirmed.
- Revisit Master's Circle once a dedicated ops/intake owner is in place (Phase 2 of the roadmap).

Why This Ad Spend

What it does for him:

- Gives Austin a real, reported number to scale instead of an unexplained weekly swing.
- Keeps total spend inside the 35% cap so growth never outruns actual revenue.

Recommended Ad Spend Range:

- **Conservative:** \$4,200/mo — Google PPC + Meta Retargeting channel minimums (no LSA in Canada).
- **Aggressive:** \$56,000/mo — capped by the 35% revenue rule, not the Dominate tier's \$75K cap.

Estimated Return on Investment:

- **Conservative:** ~6 cases x \$4.5K = ~\$27K/mo vs. \$4.2K spend = ~6.4x return.
- **Aggressive:** ~93 cases x \$4.5K = ~\$418.5K/mo vs. \$56K spend = ~7.5x return.

All figures are estimates. Not guaranteed. Case value and close rate use disclosed industry defaults.

How the range was calculated:

- **Conservative:** Immigration minimums: Google PPC \$3,000 + Meta Retargeting \$1,200 = \$4,200.
- **Aggressive:** \$6M goal x 20% / 12 = \$100K, x 1.5 Tier-1 analog = \$150K. Reverse math on the stated 2,000 leads/mo need = ~\$179K — higher, so used, but both exceed what current revenue supports.
- 35% cap on ~\$200K/mo revenue = \$70K total spend. Minus \$13,697 mgmt fees = \$56K max ad spend — the binding constraint, not the Dominate tier cap.

If He Pushes Back

"I thought I qualified for the top marketing tier."

Platinum requires \$3M+ in actual current revenue — the transcript puts Mandall at a ~\$2M run rate, not \$3M+. Dominate is the correct fit for \$1M+ revenue with aggressive goals, and Phase 4 revisits Platinum once revenue crosses \$3M.

"Why not Master's Circle with a 10-person team?"

Master's Circle requires a dedicated ops/marketing/intake team member. The transcript shows Austin personally handling payment collection and file opening himself — confirm with him directly whether a dedicated ops role actually exists before upgrading.

"Why isn't the ad spend higher given our \$500K/mo goal?"

The firm's own math needs ~\$179K/mo in ad spend to hit that goal directly — but the 35% cap protects Mandall from overcommitting relative to today's ~\$200K-280K/mo revenue. As revenue grows (including from this spend), available ad spend room grows with it.
