Prospect Snapshot

Owner	Revenue	Team	Stage	Close Rate	Location
Jesus Rivera	~\$600K-\$900K/yr (volatile)	6 (solo + 5 staff)	Stage 4	50% (Access Legal)	Schaumburg, IL

Dominant Buying Motive: LEGACY

Jesus wants a firm valuable and stable enough to hand down to his daughter in about 5 years — which means becoming a CEO, not the 'Chief Everything Officer.'

"create a valuable legacy for the owner's daughter to inherit"

"Chief Everything Officer"

"restore revenue to \$1M/year"

What he wants:

- **A legacy, not just a paycheck.** He wants a firm his daughter can inherit in about 5 years.
- **Out of the bottleneck seat.** He wants to stop personally handling every consultation.
- **Revenue he can plan around.** He wants to restore \$1M/year and stabilize it, not just hit it once.
- **A firm that survives a shock.** He wants systems that don't collapse if one person leaves.

What is stopping him:

- **No local visibility.** Rivera Law did not surface in 9 of 9 local searches across all 3 practice areas.
- **Ad spend too small to matter.** \$125/week is described as 'less effective.'
- **Owner-run intake.** Jesus personally vets every lead; only 5 of 20-30 monthly inquiries convert.
- **Single point of failure.** An associate's exit cut active files from 900 to 688 and halved revenue.
- **No budget objection on record.** Nothing in the transcript suggests price sensitivity.

Why This Marketing Package

What it does for him:

- Makes Rivera Law visible where it is currently invisible — in local search, across all 3 practice areas.
- Replaces a \$125/week ad hoc spend with a structured, multi-channel campaign built to hit the \$1M goal.
- Turns his 4.7-star reputation into a real competitive asset instead of a hidden one.

Full Service Marketing — Starter | \$4,997/mo bundled

- HubSpot showed \$3M+ revenue, but the '\$1M/year restoration goal' and \$50K-\$100K monthly figures place actual revenue under \$1M — Starter, not Platinum, is correct.
- 3 practice areas across 1 location rules out Essentials regardless of revenue.
- \$20,000/mo ad spend cap comfortably covers the recommended range below.

Why This Coaching Package

What it does for him:

- Builds the intake process that gets Jesus out of personally vetting every lead.
- Starts the delegation and leadership structure his 5-person staff needs so he's not the single point of failure.
- Moves him from 'Chief Everything Officer' toward the CEO role his legacy goal requires.

Elite Coach Plus | \$3,200/mo bundled

- Revenue band (\$400K-\$1M) and team size (6) point to Elite Coach Plus over Master's Circle.
- Includes weekly group coaching, practice area masterminds, and workshop access.

Why This Ad Spend

What it does for him:

- Directly targets the \$1M/year restoration goal with a spend level his firm can sustain today.
- Covers all 3 practice areas, including Criminal Defense — his stated growth focus.

Recommended Ad Spend Range:

- **Conservative:** \$14,000/mo — Google PPC minimums across all 3 practice areas plus one firm-wide LSA minimum.
- **Aggressive:** \$18,000/mo — capped below the Starter tier's \$20,000 limit and the 35% total-spend guardrail, not the full \$23,820 the 20% rule alone would support.

Estimated Return on Investment:

- **Conservative:** ~14 cases x \$4,575 avg case value = ~\$64,050/mo vs. \$14,000 spend = ~4.6x return.
- **Aggressive:** ~22 cases x \$4,575 avg case value = ~\$100,650/mo vs. \$18,000 spend = ~5.6x return.

All figures are estimates. Average case value was not stated on the call — practice-area defaults used. Not guaranteed.

How the range was calculated:

- **Conservative:** Family Law PPC \$3,500 + Immigration PPC \$3,000 + Criminal Defense PPC \$5,500 + LSA \$2,000 = \$14,000.
- **Aggressive:** \$1M goal x 20% / 12 = \$16,667. Tier 2 metro (x1.3) = \$21,667. Spanish campaign (x1.33) = \$28,817. Minus \$4,997 fee = \$23,820 raw, capped to \$18,000 by the 35% guardrail.
- Total spend at aggressive: \$8,197 mgmt fees + \$18,000 ad spend = \$26,197/mo = ~34.9% of ~\$75K/mo revenue. Under the 35% cap.

If He Pushes Back

"We already tried Google Ads and it wasn't worth it."

His own \$125/week spend never had the budget or the structure to compete — Sterling Lawyers and Francis Law Center are outspending and outranking him with dedicated, full-service campaigns. This isn't more of the same; it's a different scale entirely.

"\$8,197/mo plus ad spend feels like a lot right now given how volatile revenue has been."

The recommended spend is capped so total investment stays under 35% of monthly revenue even in the aggressive scenario — this was built around his current volatility, not around ignoring it.

"How do I know this won't just be another expense if revenue drops again?"

The coaching engagement directly targets the single-point-of-failure risk that caused the November drop — building delegation and process so the firm isn't as exposed to losing one person again.
