Cha Cha Cha Law

Sales Companion | October 23, 2026 | Rep: Jacob Meissner

Prospect Snapshot

Owner	Revenue	Team	Stage	Close Rate	Location
Alex Cha (call: Samuel Yi)	$3M 2026 goal	10	Stage 4	Not stated	Downtown LA

Dominant Buying Motive: FREEDOM

Samuel wants a self-managing team that gets Alex out of production and onto the business, using AI for efficiency, not to replace people.

> *"Yeah, like a self-managing team. I try to get him out of production."*

> *"...he should focus more on the business portion, like marketing, and he could work on like a handful of cases..."*

What they want:

- **Intake handled by AI.** "If it could take over intake, that'd be great."
- **Faster drafting and search.** Discovery drafts, complaint drafts, demand letters, Gmail and Dropbox search.
- **Both done-for-you and self-serve.** Samuel answered "Both." at 00:34:37.
- **Lower cost than EvenUp.** Same demand-letter output at a "significantly cheaper cost."

What is stopping them:

- **Alex likes casework.** Samuel says he enjoys working some cases, so frame it as a handful by choice.
- **One Claude Pro account.** A Team plan is planned but not bought yet.
- **Tools not connected.** Lawmatics is not connected to Claude; Gmail and Dropbox are.
- **Alex was not on the call.** Samuel has not used the demo account and sends his AI wish list first.

Why This Marketing Package

What it does for her:

- Someone else leads the AI rollout, so his team does not do it on top of their jobs.
- Every month adds working skills and an automation aimed at intake and drafting.
- Work leaves the team, which moves Alex closer to the business side.

Fractional CTO Level 1 | $3,297/mo bundled

- Revenue fits: $3M goal (HubSpot $3M+) vs. the $400K floor for Level 1.
- Samuel wanted done-for-you and self-serve, and the rep pitched the fCTO as done-for-you.
- Level 1: one monthly 1:1, up to 2 skills, up to 1 custom automation a month.

Why This Coaching Package

What it does for her:

- All ten people work from one shared, firm-managed AI workspace.
- AI skills for intake, drafting, and search become how the firm works.
- Efficiency without replacing anyone, which is the stated goal.

AI Workforce Pro (10 users) | $2,197/mo bundled

- Price: $1,597 for the first 5 users plus 5 x $120 = $2,197. No stand-alone price.
- Seat count of 10 is the full team. Confirm before sending.
- Yearly contract; 20M credits (10M + 10M bonus); overage $150/mo.

Cha Cha Cha Law — Sales Companion (continued)

Why No Marketing or Ad Spend

What it does for them:

- Keeps the proposal on AI, which is why Samuel booked the call.
- Leaves room to add other services once AI frees up the owner's time.

Why marketing was left out:

- The call was AI-led. No lead-gen need was stated.
- Marketing is in-house with no active vendor, so there is no ad spend or ROI to project.
- The package file's Elite Coach Plus had no transcript basis and was removed.

Check before the call:

- Review counts are UNCONFIRMED. Verify live; the report uses no exact numbers.
- Google, GBP, 3-pack, ads, LSA, and Meta data were not reachable in research.
- $3M is a 2026 goal, not confirmed revenue. Confirm the seat count and AI delivery capacity.

If She Pushes Back

"I know AI is not there yet."

Start with what works today: intake and drafting skills, with a weekly implementation session. Do not promise the AI Employee agent; it was in beta.

"We can do this ourselves with Claude."

He is on one Pro account and Lawmatics is not connected. The shared workspace and the fCTO give the whole team the same tools without the rollout landing on them.

"What does it cost per user, and can we get it in writing?"

$1,597 covers the first 5 users, then $120 per extra user, so 10 users is $2,197. The fCTO is $3,297. Send the written proposal he asked for.

Investment At A Glance

Fractional CTO Level 1 Monthly 1:1 sessions, skills deployed, and a custom automation.	**$3,297/mo** ~~$3,797~~ stand alone
AI Workforce Pro (10 users) Shared AI workspace plus a weekly implementation session.	**$2,197/mo** No stand-alone price
Marketing and Ad Spend No marketing package in this proposal.	**Not included**

Total: $5,494/mo | Save $500/mo by bundling | 2.2% of the $3M goal (under 35% cap)
