Dominant Buying Motive: SCALE AND DOMINATE

Mauro wants a firm that generates consistent case flow across all 8 locations without him personally driving every client relationship.

"No transcript provided — DBM inferred from firm website and market research. Confirm on discovery call."

What he wants:

- **Predictable case flow at scale.** A paid system generating leads across all 8 markets — not referrals or organic alone.
- **A firm that runs without him.** 25 years and 9 attorneys should produce revenue without Mauro driving every relationship.
- **Market dominance in LA PI.** His footprint and reputation should translate to digital dominance — not ceding ground to newcomers with bigger budgets.

What is stopping him:

- **No paid marketing system.** No Google Ads, LSA, or Meta confirmed — competitors own all paid visibility in his markets.
- **No intake coordination across 8 offices.** Leads likely lost with no visibility into how many or where.
- **No ops layer.** Mauro is the decision-maker for 9 attorneys across 8 offices — a ceiling on growth.

Why This Marketing Package

What it does for him:

- Launches paid case acquisition across all 8 markets — capturing high-intent PI and MVA searches competitors are currently winning.
- Adds Spanish-language campaigns — Fiore's bilingual team and Spanish site are ready; CPLs run 20-40% lower than English with identical case values.

Full Service Marketing — Growth | \$7,397/mo bundled

- Revenue ~\$1.5M — Growth tier is correct for \$1M–\$3M. Growth tier ad spend cap: \$40,000/mo.
- PI in Tier 1 mega market (LA) — high-competitiveness floor applied; Spanish campaign multiplier also applies.
- 8-location GBP optimization, local SEO, and city-specific landing pages all covered under one management fee.

Why This Coaching Package

What it does for him:

- Gives Mauro the framework to build the ops layer, intake system, and financial visibility the firm needs to run at scale.
- Peer network of PI firm owners at the same revenue and complexity level — people who have solved the same problems he is facing now.

Master's Circle | \$4,600/mo bundled

- Revenue \$1.5M+, 9 attorneys — firm is above \$1M threshold; Master's Circle is the appropriate coaching tier.
- No confirmed ops staff — coaching will provide the roadmap to build this layer; verify ops readiness with Randy Gold before finalizing.

Why This Ad Spend

What it does for him:

- At conservative, generates est. 5 signed cases/month = \$37,500 revenue from ads — a 3.75x return on spend.
- At aggressive, generates est. 28 cases/month = \$210,000 revenue — a 5x return, dominating every market Fiore Legal serves.

Recommended Ad Spend Range:

- **Conservative:** \$10,000/mo — MVA minimums: PPC \$5,000 + LSA \$2,000 + Meta \$3,000.
- **Aggressive:** \$40,000/mo — Growth tier cap; full depth across all markets and Spanish campaigns.

Estimated ROI:

- **Conservative:** 5 cases x \$7,500 = \$37,500 vs. \$10,000 spend = 3.75x. (CPL ~\$261 w/ cushion; 15% close; default case value.)
- **Aggressive:** 28 cases x \$7,500 = \$210,000 vs. \$40,000 spend = 5.25x. (CPL ~\$210; no cushion; English + Spanish.)

Estimates only. Not guaranteed. Confirm revenue and case value on discovery call.

Cap note:

- At aggressive: \$51,997 total (fees + ads) = 41.6% of estimated \$125K/mo revenue — exceeds 35% cap. Confirm actual revenue; if above \$1.5M estimate, this resolves.

If He Pushes Back

"We've grown on referrals for 25 years — I'm not sure paid ads will work for us."

Downtown LA Law Group has 624 Avvo reviews and a full paid marketing stack in every Fiore market. Sweet James has 600+ five-star reviews and multi-million dollar verdicts marketed digitally. Referrals built the firm — paid search is what wins in LA PI today. Spanish-language PI campaigns here show CPLs 20-40% below English with identical case values.

"The \$11,997/month is a significant commitment."

Conservative scenario: 5 cases x \$7,500 = \$37,500/mo from ads on \$10,000 spend — 3.75x return. Bundled pricing saves \$1,997/month vs. retail. And a 25-year LA PI firm's average case value is likely above the \$7,500 default — actual ROI will be higher.

"We don't have revenue figures ready."

Revenue estimated at ~\$1.5M from team size. Getting the verified baseline is one of the explicit Master's Circle first-90-days deliverables. We start with the estimate and refine quickly — it doesn't block starting the marketing campaigns.
