Dominant Buying Motive: SCALE AND DOMINATE

Jeff wants a competent partner to fix his digital foundation so he can scale into the dominant practice his 30-year Board Certified credentials have already earned.

"primarily divorce; second most child custody modifications; also enforcements and protective orders"

"firm expanding space and headcount in approximately six months; wants +20% lead growth now, more later"

What he wants:

- **Digital presence matching his credentials.** Board Certified, Top 100 TX, 30 years — but invisible in Maps and absent from every paid channel.
- **+20% leads now with a clear expansion path.** Explicit near-term goal tied to planned space and staff additions in 6 months.
- **A partner who does not make technical mistakes.** Vendor failures (malware, errors, wrong numbers) created deep frustration; he wants competence.

What is stopping him:

- **Vendor failures.** Malware, content errors, wrong phone numbers, cross-contaminated location pages — technical debt never resolved.
- **Review gap.** 22 Google reviews vs. Pfister 240+, Ramage 317+ — structurally invisible in the 3-pack until this closes.
- **No call tracking.** Cannot attribute which sources generate calls; every marketing decision is a guess.
- **Bad LSA experience.** Prior LSAs produced unqualified leads — makes him cautious about paid channel investment.

Why This Marketing Package

What it does for him:

- Paid visibility in the high-intent divorce and custody searches Jeff is currently absent from — from day one.
- Full attribution via CallRail — every call tracked, every dollar accounted for, investment decisions data-driven.

Full Service Marketing — Starter | \$4,847/mo bundled

- Organic traffic declining 2.5+ years; zero paid channels running while competitors buy every relevant search position.
- Website has malware history, content errors, NAP inconsistencies — full service rebuild required before ads launch.
- 3 locations plus expansion require full scope: website, GBP, PPC, local SEO, and citations across all markets.

Why This Coaching Package

What it does for him:

- Planned expansion — new space, staff, Dallas and San Antonio — happens with structure and accountability rather than instinct.
- Expert guidance on every growth decision so Jeff is not navigating team-building and ops expansion alone.

Elite Coach Plus | \$3,200/mo bundled

- Revenue ~\$400K–\$1M — Elite Coach Plus is the correct tier; Master's Circle requires \$1M+ and 5+ dedicated staff.
- Staff expansion planned in 6 months — needs coaching framework before adding headcount to avoid unstructured growth.
- Hunter referral with record SMB profit months is the proof point; Jeff wants the same results from the same model.

Why This Ad Spend

What it does for him:

- Paid visibility in Frisco and Dallas searches Jeff is invisible in — converting high-intent prospects searching right now.
- Measurable return on tracked investment with CallRail; CPL and ROI visible from day one.

Recommended Ad Spend Range:

- **Conservative \$3,500/mo:** Google PPC + Meta for Frisco/Dallas; minimum viable for meaningful paid visibility.
- **Aggressive \$7,000/mo:** Starter tier cap; 4–6 cases/month at projected ROI.
- **Conservative ROI:** ~2–3 cases x \$20K avg = \$40K–\$60K/mo vs. \$3,500 spend = ~11–17x (est.).
- **Aggressive ROI:** ~4–6 cases x \$20K avg = \$80K–\$120K/mo vs. \$7,000 spend = ~12–17x (est.).

Estimates only. Default case value \$20,000 — confirm with Jeff before proposal.

- 35% cap: \$8,047 + \$3,500 = \$11,547 = 27.7% of \$500K revenue — within cap at conservative. Flag aggressive with Dan.

If He Pushes Back

"We tried LSAs and the leads were terrible — low income, unqualified."

LSA issue was broad targeting with no filters — not a platform problem. Recommended path is smart PPC with CallRail, Board Certified and high-net-worth keyword targeting, and negative keyword exclusions. Pfister (240+ reviews) and Ramage (317+) are in those LSA spots now.

"The website was just redesigned — why rebuild it again?"

The current vendor introduced malware, typos, wrong phone numbers, and cross-contaminated city content. PageSpeed expected below 50 mobile. These inflate Google Ads CPCs and suppress local rankings. Rebuilding on a clean foundation costs less than paying premium CPCs on a broken one.

"\$8,000 a month feels like a lot right now."

At \$3,500 conservative ad spend, total is \$11,547/mo. Projected return at 2–3 cases x \$20K avg = \$40K–\$60K/mo revenue. That is a 3.5–5x return on total spend — and the competitor gap (Pfister: 240 reviews, Jeff: 22) widens every month without action.
