

# The Law Offices of Natalie Rowland

Sales Companion | August 21, 2026 | Rep: Jacob Meissner

## Prospect Snapshot

| Owner           | Revenue   | Team        | Stage   | Close Rate    | Location    |
|-----------------|-----------|-------------|---------|---------------|-------------|
| Natalie Rowland | \$250K/yr | 2 (solo+VA) | Stage 3 | 15% (default) | Atlanta, GA |

## Dominant Buying Motive: AUTONOMY

**Natalie wants to grow to \$1M/yr without giving up personal control over which clients and cases she takes — freedom through systems, not through stepping away.**

*"control freak"*

*"cookie-cutter"*

*"unsustainable for clients earning <\$100k/yr"*

### What she wants:

- **Grow to \$1M/yr.** Explicitly stated revenue goal for the practice.
- **Stay personally involved.** Wants to remain hands-on with the clients and cases she chooses.
- **Avoid becoming "cookie-cutter."** Wants to keep the high-touch practice model that built her reputation.
- **Reposition around high-asset family law.** Actively transitioning away from her lower-value general practice work.

### What is stopping her:

- **No online presence.** Zero-review GBP and a blank-page website.
- **No delegation system.** Assistant hired three weeks ago; she still handles all intake.
- **No profit plan.** Revenue is a range, not a documented target.
- **Unsustainable fee model.** Her \$450+/hr rate does not fit her old client base.

## Why This Marketing Package

### What it does for her:

- Nothing yet — deferred to Phase 2, per the call.
- Protects future ad spend from a zero-review, single-page site.

### No Marketing Package Recommended (Phase 1) | \$0/mo

- Call concluded foundational work must precede paid marketing.
- Revenue maps to Starter tier by the numbers, but the call-purpose override applies.
- Marketing to be scoped in Phase 2 once GBP, reviews, and site are live.

## Why This Coaching Package

### What it does for her:

- Turns 18 years of reputation into SOPs her assistant can run.
- Frees her from personally handling every intake call.

### Elite Coach | \$3,497/mo (stand-alone)

- Revenue (\$250K/yr) and team size (2) map to the \$250K–\$400K Elite Coach tier.
- No marketing is being purchased, so this is priced stand-alone, not bundled.
- Includes weekly group coaching, masterminds, and quarterly workshop access.

# Natalie Rowland — Sales Companion (continued)

## Why This Ad Spend

### What it does for her:

- Nothing yet — deferred until the site and reviews can convert clicks.

### Recommended Ad Spend Range:

- **Conservative:** \$0/mo — no ad spend recommended in Phase 1.
- **Aggressive:** \$0/mo — same reasoning; to be scoped in Phase 2.

### Estimated Return on Investment:

- **Conservative:** N/A — no ad spend this phase.
- **Aggressive:** N/A — to be projected once Phase 2 is scoped.

All figures are estimates. Not guaranteed.

### How the range was calculated:

- N/A this phase — Atlanta is Tier 1 (1.5x); Family Law minimums apply once scoped in Phase 2.
- Total SMB spend at \$3,497/mo = 16.8% of monthly revenue (\$20,833/mo) — well under the 35% cap.

## If She Pushes Back

### "Why isn't SMB Team running ads for me right now?"

Zero reviews and a blank page mean ad dollars today would be wasted — we build the site and reviews first so Phase 2 marketing converts.

### "\$3,497/month feels like a lot for coaching alone."

This is the stand-alone rate since no marketing package is included this phase — it covers the full Elite Coach engagement for her transition.

### "How do I know this gets me to \$1M/yr?"

Her goal needs a higher case value than her current 15–20 cases/mo — Phase 1 builds the profit plan Phase 2 marketing will need to convert.

## Investment At A Glance

### No Marketing Package (Phase 1)

**\$0/mo**

Foundational work comes first, per the call.

### Elite Coach

**\$3,497/mo**

Stand-alone engagement — no bundle discount applies.

### Recommended Ad Spend

**Not recommended in Phase 1**

Begins in Phase 2, once GBP and site are built.

**Total: \$3,497/mo (Elite Coach only) | No ad spend in Phase 1 | 16.8% of monthly revenue (well under 35% cap)**
