Dominant Buying Motive: PREDICTABLE CASE FLOW / FREEDOM TO PRACTICE

Steven wants a machine that feeds cases predictably so he can focus on defending clients — not on marketing or business development.

"No transcript — DBM inferred from 39-year solo DUI practice; attorney skilled at law but lacks a systematic lead generation engine."

"Confirm DBM, revenue, team size, and close rate on June 5, 2026 discovery call before finalizing proposal."

What he wants:

- **Predictable case flow.** Cases that arrive without chasing — marketing works while he is in court.
- **Freedom to practice law.** Time on client defense, not on marketing and operations.
- **Financial visibility.** Knowing what he takes home — not discovering profit at year-end.

What is stopping him:

- **No paid lead generation.** Zero Google Ads, LSA, or Meta presence — entirely referral-dependent.
- **NAP inconsistency.** Address conflicts (715 vs. 617 Stokes Rd) suppress local pack rankings.
- **No intake process.** After-hours coverage and follow-up sequences not confirmed — DUI leads arrive at night.
- **Owner-dependency.** Solo attorney: the firm stops when he stops.

Why This Marketing Package

What it does for him:

- **Cases come in while he is in court.** Google Ads, LSA, and Meta generate leads across every channel — no attorney involvement required.
- **Closes the paid channel gap on all fronts.** Firm becomes visible where Baxter, Levow, and SRIS currently operate unopposed.
- **Turns 39 years of reputation into a growth engine.** 120 five-star reviews and an 80% dismissal rate convert at high rates when the firm is visible.

Full Service Marketing Growth | \$8,997/mo standalone + \$2,200 setup

- Package override applied per sales rep instruction — Growth tier for full South Jersey DUI market domination.
- Growth tier includes Google Ads, LSA, Meta retargeting and lead gen, full local SEO, and website optimization.
- Growth ad spend cap \$50,000/mo — well above the \$7,500–\$15,000 recommended range for this market.
- Bundling with Elite Coach Plus saves \$1,600/mo on marketing (drops to \$7,397 bundled) — strong Phase 2 upsell.

Why This Ad Spend

What it does for him:

- **Creates the pipeline he has never had.** Paid leads arrive on schedule — not when referrals happen to come in.
- **Closes the gap on Baxter and Levow.** Puts this firm in front of the same high-intent DUI prospects they capture now.

Recommended Ad Spend Range:

- **Conservative:** \$7,500/mo — criminal defense minimums: Google PPC \$5,500 + LSA \$2,000.
- **Aggressive:** \$15,000/mo — Google \$8,000 + LSA \$3,000 + Meta Retargeting \$2,000 + Meta Lead Gen \$2,000.

Estimated ROI:

- **Conservative:** ~5 cases x \$4,500 = ~\$22,500/mo vs. \$7,500 spend = ~3.0x return. (Est.)
- **Aggressive:** ~15 cases x \$4,500 = ~\$67,500/mo vs. \$15,000 spend = ~4.5x return. (Est.)

Estimates. NJ DUI defaults: \$4,000–\$5,000 case value; 15% close rate. Not guaranteed.

How calculated:

- **Conservative:** Google \$5,500/(\$180+20%=\$216)=25 leads; LSA \$2,000/(\$160+20%=\$192)=10 leads; 35 x 15% = 5 cases.
- **Aggressive:** \$15,000 / \$148 blended CPL = 101 leads x 15% = 15 cases; blended CPL uses Google 53%, LSA 20%, Meta 27%.

If He Pushes Back

"I've built this for 39 years without paid ads."

Baxter (144 reviews, former prosecutor) and Levow DWI Law (15 consecutive Best Law Firms) are already running paid Burlington County campaigns. Every month without ads is a month they convert the prospects who should be calling Steven.

"This feels like a big investment."

Conservative scenario: 5 cases/month at \$4,500 average = \$22,500 in monthly revenue vs. \$7,500 in ad spend — 3.0x return before accounting for case value growth. One additional case per month pays for the management fee.

"Will Avvo hurt the ads?"

Google Ads and LSA are independent of Avvo. The 120 Google reviews at 4.9 stars are what Google uses for LSA qualification — that profile is strong. Avvo management is a separate long-term item that does not block ads from launching.

"What if I can't handle more cases?"

Phase 2 builds the intake coordinator and operations layer that scales capacity alongside case volume. The Growth package includes intake optimization in the first 90 days — we build the intake capacity before scaling spend.
