Dominant Buying Motive: TIME FREEDOM

A firm that runs on systems, so the team can stop hiring and grow into business and tax planning.

"I'm tired of hiring employees... implement systems... so that we can quit hiring for a hot minute."

"We're leaving a lot of money on the table by not pushing forward into business and tax... I'm out of bandwidth."

What the owner wants:

- **Stop hiring.** Growth should not mean another round of headcount.
- **Secure, firmwide AI.** Roll AI out to the whole team safely.
- **New verticals.** Add business and tax planning without more strain.
- **A balanced team.** Protect work-life balance for a team of moms.

What is stopping the owner:

- **No bandwidth.** The owner has no time to lead an AI rollout personally.
- **Manual handoffs.** Recaps, file organization, and task handoffs run on people.
- **Weak after-hours.** The Abby Connect voice AI is viewed as subpar.
- **Split systems.** Intake data sits in both GoHighLevel and DecisionVault.
- **Pricing pending.** Formal AI Workforce Pro and fCTO pricing is still to come.

Why This Fractional CTO Package

What it does for the owner:

- A dedicated leader runs the AI rollout, so no one on the team has to find the time.
- Recaps, file work, and handoffs become automations instead of coordinator hours.
- The SOP-trained knowledge base lets a third office launch on the firm's own systems.

Fractional CTO Level 2 | \$4,997/mo bundled

- Revenue is about \$3M, above the \$1M requirement for Level 2.
- Levels 1 and 2 were both discussed on the call; Level 2 adds speed for a firmwide rollout.
- Level 2: 2 monthly 1:1s, up to 4 skills, up to 2 custom automations. \$0 setup fee.
- Level 3 (\$8,997/mo) also qualifies at \$3M+ if the owner wants weekly sessions.

Why This AI Workforce Pro Package

What it does for the owner:

- Every team member works in one secure, firmwide AI workspace.
- The weekly implementation session turns tools into daily habits.
- The workspace gives the fCTO a place to deploy skills the whole team uses.

AI Workforce Pro, 20 seats | \$3,397/mo bundled

- \$1,597/mo covers 5 users, plus \$120/mo for each of 15 more users.
- 20 seats was a planning count on the call. Confirm the real number.
- Yearly contract with 10M usage and 10M bonus credits. No stand-alone price exists.
- Overages are billed at \$150/mo.

Why No Marketing Package

What this does for the owner:

- The proposal matches what the owner asked for: AI implementation, not lead generation.
- Every dollar goes to the problem the owner named, which is bandwidth and hiring.

Why the default package was overridden:

- The pricing logic suggested Platinum marketing plus Elite Coach Plus, about \$19,197/mo.
- The call was about AI. LSAs already bring in qualified trust clients.
- The default also assumed a team of 3. The firm has about 18 people.
- Marketing can be revisited later if the owner raises lead volume.
- Spend check: \$8,394/mo is about 3.4% of monthly revenue, under the 35% cap.

If The Owner Pushes Back

"We already pay about \$430 a month for Claude."

Those seats are the tools. The fCTO decides what to automate, builds it, and the weekly session drives adoption. The owner said "I'm out of bandwidth." This is the bandwidth.

"Can we start with Level 1?"

Level 1 is \$3,297/mo with one monthly session, 2 skills, and 1 automation. Level 2 gives twice the sessions and automations for a firmwide rollout ahead of the third office.

"Do we really need 20 seats?"

20 was the planning count. Each seat past 5 is \$120/mo, so the price moves in simple steps. Confirm the exact number on the Solution Call.

Before You Send

- **LAW delivery.** Confirm LAW delivery has launched and capacity is open.
- **Reviews.** Review counts are unconfirmed (Birdeye only). Verify on Google first.
- **Not captured.** PageSpeed, live GBP, Google Ads, and Meta Ads data were not obtained.
- **Phone numbers.** The site shows (706) 702-5749 and (706) 352-9060. Confirm which is right.
