

BW Law, PLLC

Sales Companion | August 14, 2026 | Rep: Randy Gold

Prospect Snapshot

Owner	Revenue	Team	Stage	Close Rate	Location
Sarah (Yunjuan) Bai	~\$200K (2025); goal \$500K	1 PT assistant + contract ors	4: Small Biz Mgr	Not stated (15% default)	Gainesville, FL

Dominant Buying Motive: FREEDOM FROM "CHIEF EVERYTHING OFFICER"

Sarah wants to stop personally reviewing every contractor's work and build a team she trusts, so she can spend her time on business development and networking instead.

"Chief everything officer"

"Build a trusted team to delegate work and reduce personal stress"

What she wants:

- **Hit \$500K without burning out.** Scale from ~\$200K without just working more hours.
- **Delegate real work.** A team she trusts enough to stop reviewing every file herself.
- **Get her time back.** Room for business development and networking, not just oversight.

What is stopping her:

- **No hiring system.** Every hire depends entirely on her personal time to train and review.
- **Thin team.** One part-time assistant plus contractors — no one owns ops or QA.
- **No capacity plan behind \$500K.** The revenue target exists; the team plan does not.
- **Single lead channel.** GBP, referrals, and networking work, but nothing adds volume on top.

Why This Coaching Package

What it does for her:

- Gives her a structured hiring and delegation framework instead of winging it.
- Group coaching with owners solving the same Stage 4 to 6 problem.

Coach Essentials Plus | \$2,497/mo stand-alone

- Revenue is under \$250K on both the HubSpot estimate (\$180K) and the transcript figure (~\$200K) — Elite Coach's floor is \$250K+, so it does not qualify. Coach Essentials Plus is the correct tier (fund verification required).
- Closely matches what was proposed on the call: coaching on hiring/systems at ~\$2,000/mo, which Sarah confirmed as realistic.
- Priced stand-alone — no marketing package is bundled in, so there is no bundled discount to show.
- No marketing package included: GBP/referrals/networking already work and there is no paid history to fix. Single-product by design.

AI Workforce Pro – Starter (1 user) | \$350/mo

- The exact 'AI Workforce' platform discussed on the call, sized to a single user — no revenue floor on this seat tier, unlike the 5-user AI Essentials tier.
- Automates intake qualification, case-update communication, and email drafting — freeing Sarah's time for hiring and business development.

Why We're Not Recommending Ads Yet

Randy's call:

- BW Law is budget-conscious and is prioritizing the hiring/operations fix first — do not lead with or push ad spend on this proposal.
- Revisit paid visibility in Phase 2, once hiring and delegation systems free up bandwidth to handle added lead flow.

Reference math only (not part of this proposal):

- **Conservative:** \$3,000/mo — Immigration Google PPC minimum, which also matches the platform's absolute floor for any paid ads.
- **Aggressive:** \$8,300/mo — full budget aligned to the \$500K revenue goal.

Estimated Return, if pursued later:

- **Conservative:** ~3.8 cases x \$4.5K avg case value = ~\$17.3K/mo vs. \$3.0K spend = ~5.8x return.
- **Aggressive:** ~12.8 cases x \$4.5K avg case value = ~\$57.6K/mo vs. \$8.3K spend = ~6.9x return.

All figures are estimates using an Immigration default case value (\$4,500) and 15% default close rate — neither was stated on the call. Not guaranteed, and not currently recommended.

If She Pushes Back

"Why isn't there a marketing package here?"

She said GBP, referrals, and networking are working, and she's never run paid marketing. The call was about hiring, not lead gen. Ad spend is reference-only for a later phase, not part of this proposal.

"Is \$2,497/mo really enough for the coaching?"

She independently confirmed ~\$2,000/mo as realistic before we quoted a price — \$2,497/mo stand-alone is close to what she already told us she's comfortable with.

"Can we do LSA/PPC too?"

Randy has committed to including LSA/PPC at no additional service fee whenever she opts in down the road — flag this as a rep concession, not a standard catalog term (standard add-on is \$900/mo), so it's tracked if she takes him up on it.
