Prospect Snapshot

Owner	Revenue	Team	Stage	Close Rate	Location
Michelle Chase, Esq.	Pre-revenue (\$0–\$180K est.)	Solo (1)	Stage 3	15% (default)	Portugal (FL market)

Dominant Buying Motive: LOCATION INDEPENDENCE UNDER DEADLINE

Michelle relocated to Portugal and has a 12-month runway to replace \$400K+ in combined income — this firm must become self-sustaining remotely, or the model fails.

"The firm has a 12-month runway after relocating to Portugal. The goal is to replace a combined \$400K+ annual income, targeting \$1M+ annual profit."

"Become the experts in work comp in Florida."

"Only three cases coming from referrals."

What she wants:

- **Income from Portugal.** Replace \$400K+ combined income within 12 months — remotely.
- **A self-running firm.** Intake and operations handled without her being physically in Florida.
- **Workers' comp market leadership.** Become the recognized Florida expert in work comp.
- **A financial plan.** \$250K year-one goal with real case targets and cost benchmarks.

What is stopping her:

- **GBP stuck since April 2026.** No 3-pack, no LSA, no reviews — all blocked until verification.
- **Wrong Google Ads keywords.** Health insurance targeting: 200 daily visitors, zero leads.
- **Solo, 6-hour time zone gap.** No one in Florida for intake or time-sensitive needs.
- **No intake system.** Leads that miss Michelle go to whichever competitor answers first.
- **No financial model.** \$250K goal with no break-even analysis or monthly case targets.

Why This Marketing Package

What it does for her:

- Rebuilds Google Ads with workers' comp keywords — same budget, right targeting, real leads.
- Resolves GBP and launches LSA — Chase Injury Law appears above every competitor on Google.
- Inbound lead flow that works from Portugal — no daily campaign management required.

Full Service Marketing — Essentials | \$3,397/mo bundled

- No lead gen infrastructure exists — full service required to build from zero.
- Essentials tier for pre-revenue firm; ad spend cap \$7,500/mo.
- Workers' comp primary — no PI filter triggered; Essentials is eligible.
- Scoping: confirm client can cover 4 months (\$23,988) before proceeding.

Why This Coaching Package

What it does for her:

- Builds the break-even model that turns \$250K goal into tracked monthly case targets.
- Designs the remote intake system so Florida leads don't fall through the time zone gap.
- Accountability structure to ensure the 12-month runway produces results before it expires.

Elite Coach | \$2,600/mo bundled (saves \$897/mo vs. \$3,497 stand-alone)

- Revenue under \$250K: Elite Coach is the correct coaching tier.
- No financial model exists — break-even planning is immediate need #1.
- Remote intake design for Portugal ops is a direct coaching deliverable.
- Scoping: revenue under \$250K requires scoping approval before proceeding.

Why This Ad Spend

What it does for her:

- Places Chase Injury Law in front of injured Florida workers the moment they search Google.
- Generates the case volume needed to hit \$250K year-one within the 12-month runway.

Recommended Range | Estimated ROI:

- **Conservative \$3,000/mo:** ~6 leads x 15% = 1 case x \$25K = \$25K/mo est. revenue. ~8x ROAS.
- **Aggressive \$7,500/mo:** ~18 leads x 15% = 3 cases x \$25K = \$75K/mo est. revenue. ~10x ROAS.

Estimates. ACV = FL workers' comp default (\$25K). Settlements take 6–18 months. Not guaranteed.

How calculated:

- Conservative: absolute minimum (\$3K); LSA \$2K + PPC \$1K.
- Aggressive: \$1M goal x 20%/12 x Tier 2 (1.3x) = \$21,667; minus \$3,397 fee = \$18,270 — capped at \$7,500.
- At aggressive: \$13,497/mo total = 8.9% of \$180K est. revenue. Under 35% cap.

If She Pushes Back

"My vendor tried Google Ads and it didn't work."

Keywords were wrong — health insurance, not workers' comp. Masnikoff (workerscompfl.net) runs the exact strategy SMB Team is proposing. Platform works; targeting was the problem.

"I'm not sure I can afford this right now."

One workers' comp case (\$25K ACV) covers 4+ months of SMB fees. Can the 12-month runway afford to wait? Anidjar & Levine: 1,696 reviews. Masnikoff: running PPC today. Every month without a system widens the gap.

"I worry about managing this from Portugal."

SMB Team manages all campaigns — Michelle reviews a monthly report. Elite Coach builds the remote intake system. The entire package is engineered for location-independent ownership.

"What if GBP verification takes too long?"

Google Ads launch immediately while GBP is in process. LSA goes live the moment it resolves. The firm does not have to wait for GBP to start generating leads.
